Washington, Tuesday, January 13, 1953

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10422

PRESCRIBING PROCEDURES FOR MAKING AVAILABLE TO THE SECRETARY GENERAL OF THE UNITED NATIONS CERTAIN INFORMATION CONCERNING UNITED STATES CITIZENS EMPLOYED OR BEING CONSIDERED FOR EMPLOYMENT ON THE SECRETARIAT OF THE UNITED NATIONS

WHEREAS the United States has ratified the Charter of the United Nations and is participating in the activities of the United Nations by virtue of the ratification of the said Charter (59 Stat. 1031), and of the authority granted by the United Nations Participation Act of 1945 (59 Stat. 619) and

WHEREAS a Commission of Jurists has advised the Secretary General of the United Nations that he should regard it as of the first importance to refrain from employing or to dismiss from employment on the Secretariat of the United Nations any United States citizen who he has reasonable grounds for believing has been, is, or is likely to be, engaged in espionage or subversive activities against the United States; and

WHEREAS the Commission of Jurists has also advised that the United States should make available to the Secretary General information on which the Secretary General can make his determination as to whether reasonable grounds exist for believing that a United States citizen employed or being considered for employment on the Secretariat has been, is, or as likely to be, engaged in espionage of subversive activities against the United States; and

WHEREAS the Commission of Jurists has further advised that the independence of the Secretary General and his sole responsibility to the General Assembly of the United Nations for the selection and retention of staff should be recognized by all Member Nations; and

WHEREAS the Secretary General has declared his intention to use the conclusions and recommendations of the opinion of the said Commission of Jurists as the basis of his personnel policy in discharging the responsibilities entrusted to him by the Charter and staff regulations of the United Nations; and

WHEREAS in the participation by the United States in the activities of the United Nations it is in the interest of the United States that United States citizens who are employees of the Secretariat of the United Nations be persons of the highest integrity and not persons who have been, are, or are likely to be, engaged in espionage or subversive activities against the United States; and

WHEREAS it is in the interest of the United States to establish a procedure for the acquisition of information by investigation and for its transmission to the Secretary General in order to assist the Secretary General in the exercise of his responsibility for determining whether any United States citizen employed or being considered for employment on the Secretariat has been, is, or is likely to be, engaged in espionage or subversive activities against the United States; and

WHEREAS such procedure should afford opportunity for hearing to any United States citizen employed or being considered for employment on the Secretariat as to whom an investigation discloses derogatory information, so that the person affected may challenge the accuracy of any such information;

NOW THEREFORE, by virtue of the authority vested in me by the Constitution, statutes, and treaties of the United States, including the Charter of the United Nations, and as President of the United States, it is hereby ordered as follows:

PART I—INVESTIGATION OF UNITED STATES CITIZENS EMPLOYED OR BEING CONSIDERED FOR EMPLOYMENT ON THE SECRETARIAT OF THE UNITED NATIONS

1. Upon the receipt by the Secretary of State from the Secretary General of the United Nations of the name of and other necessary identifying data concerning each United States citizen employed or being considered for employment by the United Nations, there shall be an investigation of such person in accordance with the standard set forth in Part II of this order.

2. The Secretary of State shall forward the information received from the Secretary General of the United Nations to the United States Civil Service Com-

the information to the Federal Bureau of Investigation, and the Bureau shall conduct a full field investigation of such person: *Provided*, that in all cases involving a United States citizen employed or being considered for employment on the internationally recruited staff of the United Nations, the investigation required by this Part shall be a full field investigation conducted by the Federal Bureau of Investigation.

5. Reports of full field investigations shall be forwarded through the United States Civil Service Commission to the appropriate Regional Loyalty Board of the Civil Service Commission. Whenever such a report contains derogatory information, under the standard set forth in Part II of this order, there shall be made available to the person in question the procedures of the Civil Service Regional Loyalty Board (including the opportunity of a hearing) and the right of appeal to the Commission's Loyalty Review Board, in like manner as provided for with respect to employment with the executive branch of the Government of the United States under Executive Order No. 9835 of March 21, 1947, as amended. The Regional Loyalty Board, or the Loyalty Review Board on appeal, shall transmit its determinations, together with the reasons therefor stated in such detail as security considerations permit, to the Secretary of State for transmission to the Secretary General of the United Nations for his use in exercising the responsibility with respect to the integrity of the personnel employed by the United Nations imposed upon him by the Charter of the United Nations and the regulations established by the General Assembly, and in light of the Report of the Commission of Jurists.

6. At any stage during the investigation or loyalty board proceeding the Secretary of State may forward to the Secretary General, in as much detail as the investigative and loyalty review agencies determine that security considerations will permit, the derogatory information disclosed by investigation. This shall be for the purpose of permitting the Secretary General to determine whether or not he should take interim action with respect to the employee prior to the completion of the procedures outlined in this order. The making available of any such information shall be without prejudice to the right of full hearing and appeal as provided for herein.

7. The Secretary of State shall notify the Secretary General in all cases in which no derogatory information has been developed.

PART II—STANDARD

1. The standard to be used by a Regional Loyalty Board or by the Loyalty Review Board on appeal, in making an advisory determination as provided for in paragraph 5 of Part I of this order with respect to a United States citizen who is an employee or is being considered for employment by the United Nations,

shall be whether or not on all the evidence there is a reasonable doubt as to the loyalty of the person involved to the Government of the United States.

2. Activities and associations of a United States citizen who is an employee or being considered for employment by the United Nations which may be considered in connection with the determination whether or not on all the evidence there is a reasonable doubt as to the loyalty of the person involved to the Government of the United States may include one or more of the following:

(a) Sabotage, espionage, or attempts or preparations therefor, or knowingly associating with spies or saboteurs.

(b) Treason or sedition or advocacy thereof.

(c) Advocacy of revolution or force or violence to alter the constitutional form of government of the United States.

(d) Intentional, unauthorized disclosure to any person, under circumstances which may indicate disloyalty to the United States, of United States documents or United States information of a confidential or non-public character obtained by the person making the disclosure as a result of his previous employment by the Government of the United States or otherwise.

(e) Performing or attempting to perform his duties, or otherwise acting, while an employee of the United States Government during a previous period, so as to serve the interests of another government in preference to the interests of the United States.

(f) Membership in, or affiliation or sympathetic association with, any foreign or domestic organization, association, movement, or group or combination of persons, designated by the Attorney General as totalitarian, fascists, communist, or subversive, or as having adopted a policy of advocating or approving the commission of acts of force or violence to deny other persons their rights under the Constitution of the United States, or as seeking to alter the form of government of the United States by unconstitutional means.

PART III—OTHER INTERNATIONAL ORGANIZATIONS

The provisions of Parts I and II of this order shall be applicable to United States citizens who are employees of, or are being considered for employment by, other public international organizations of which the United States Government is a member, by arrangement between the executive head of the international organization concerned and the Secretary of State or other officer of the United States designated by the President.

HARRY S. TRUMAN

THE WHITE HOUSE,
January 9, 1953.

[F. R. Doc. 63-303; Filed, Jan. 9, 1953; 3:44 p. m.]

mission, and the Commission shall conduct a preliminary investigation.

3. The preliminary investigation conducted by the Civil Service Commission of any such person shall be made at all available pertinent sources of information and shall include reference to:

(a) Federal Bureau of Investigation files.

(b) Civil Service Commission files.

(c) Military and naval intelligence files as appropriate.

(d) The files of any other appropriate Government investigative or intelligence agency.

(e) The files of appropriate committees of the Congress.

(f) Local law-enforcement files at the place of residence and employment of the person, including municipal, county, and State law-enforcement files.

(g) Schools and colleges attended by the person.

(h) Former employers of the person.

(i) References given by the person.

(j) Any other appropriate source.

4. Whenever information revealed with respect to any such person is derogatory, within the standard set forth in Part II of this order, the United States Civil Service Commission shall forward

Subchapter F—Animal Breeds
[BAI Order 378 Amdt 19]
PART 151—RECOGNITION OF BREEDS AND BOOKS OF RECORD OF PUREBRED ANIMALS
CANADA AND COUNTRIES OTHER THAN CANADA
On November 25 1952, a notice of rule making was published in the FEDERAL REGISTER (17 F. R. 10707) regarding proposed changes in regulations governing the recognition of breeds and books of record of purebred animals (9 CFR Part 151 as amended).
After due consideration of all relevant material presented in connection with the notice, the Secretary of Agriculture pursuant to the authority vested in him by section 201, paragraph 1606 of the Tariff Act of 1930, as amended (19 U. S. C. and Sup sec 1201, par 1606) hereby makes the following changes in such regulations:
1. Paragraph (a) of § 151.10 (9 CFR and Supp, 151.10 (a), as amended) is hereby revised to read as follows:
(a) Breeds and books of record in countries other than Canada. Books of record of the registry associations listed below are recognized for the following breeds: Provided That no Dun and Belted Galloway catle Criolla or Fjordhest (formerly known as Westland) horse, dog or cat registered in any of the books named shall be certified under the act as purebred unless a pedigree certificate showing three complete generations of known and recorded purebred ancestry of the particular breed involved issued by the appropriate association listed below, is submitted for such animal

TITLE 15—COMMERCE AND FOREIGN TRADE
Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade
 [6th Gen Rev. of Export Regs Amdt P L 241]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 Appendix A—Positive List of Commodities is amended in the following particulars:
 1 The following commodities are added to the Positive List

Dept. of Com. Schedule B No	Commodity	Unit	Processing code and related commodity group	Validated dollar license required
802360	Coal-tar intermediates, except coal tar acids; Pyrocatchol..	Lb	COTA	100 RO

2 The following commodities are deleted from the Positive List:

Dept. of Com. Schedule B No	Commodity
218500	Shellac, dry (report shellac varnish in 844210) Acids and anhydrides: Inorganic: Sulfuric acid of strengths less than 63 percent.
830360	

¹ By this amendment, the entry presently on the Positive List under Schedule B No. 830360 is revised to read as follows: "Sulfuric acid, of strengths 63 percent or stronger, including oleum (fuming sulfuric acid) (in addition to the actual weight specify strength as percentage H₂SO₄)"

² This amendment was published in Current Export Bulletin No 683 dated January 2 1953

dition of the four books of record above-named is withdrawn because the sponsoring organizations have not furnished their records in reasonably current form as required in § 151.10. The revision further removes the book of record entitled 'Large Black Pig Society Herd Book', sponsored by the Large Black Pig Society Middlesex England from the list of recognized books of record in the subdivision relating to hogs and adds the Large Black breed of hogs to the list of breeds in the book of record entitled 'Herd Book of the National Pig Breeders Association', sponsored by the National Pig Breeders' Association London England, which are currently recognized by the Secretary of Agriculture. The "Large Black Pig Society Herd Book" no longer exists. The purebred registrations for Large Black hogs contained in this herd book have been taken over by the "Herd Book of the National Pig Breeders Association".

The purpose of the amendment of subparagraph (1) of paragraph (b) of § 151.10 is to require that no Nubian goat shall be certified under the act as purebred unless a pedigree certificate showing three complete generations of known and recorded purebred ancestry of the Nubian breed is submitted for such animal

Name of breed	Book of record	By whom published
Greyhound	Greyhound Stud Book	National Coursing Club, Sydney H. Dalton, secretary, 11 Fitzmaurice, London, S W 1, England.

GOATS

The Governing Council of the Cat Fancy, W. A. Hazelidine secretary 1 Roundwood Way Banstead Surrey England

2 That portion of subparagraph (1) of paragraph (b) of § 151.10, as amended (9 CFR and Supp., 151.10 (b) (1) as amended) immediately preceding the list of breeds in said subparagraph (1) is hereby amended to read as follows:

(b) Breeds and books of record in Canada—(1) *Animals generally* The books of record of the Canadian National Live Stock Records, Ottawa, Canada, of which R. G. T. Hitchman is Director, are recognized for the following breeds: *Provided* That no animals registered in the Canadian National Live Stock Records shall be certified under the act as purebred unless such animals trace only to animals which are proved to the satisfaction of the Bureau to be of the same breed: *Provided further*, That no Karakul sheep Alpine goat, Nubian goat, or horse of the American Saddle, Canadian, or Arabian breeds in Canada shall be certified under the act as purebred unless a pedigree certificate showing three complete generations of known and recorded purebred ancestry of the particular breed involved issued by the Canadian National Live Stock Records is submitted for such animal

The foregoing revision of 9 CFR 151.10 (a) includes the substance of all prior amendments thereof. It also adds to books of record listed therein. Recognized

the list of recognized books of record in the subdivision relating to horses the book of record entitled "Registro-Matricula de Caballos de Pura Sangre", sponsored by the Minister of Agriculture, General Livestock Administration, Madrid Spain; removes the books of record entitled "Herd Book De La Race Bovine Charolaise", sponsored by the Syndicat Central D'Exportation De La Race Bovine Charolaise, Nevers, France and "Herd-Book de la Race Normande Pure", sponsored by the L'Association du Herd-Book Normand Caen France from the list of recognized books of record in the subdivision relating to cattle; removes the books of record entitled "Zuchtbuch der Fachschaft für Dobermanpinscher", sponsored by the Fachschaft für Dobermanpinscher, Berlin Germany, and "Registro Genealogico de Caninos", sponsored by the Kennel Club de Chile, Viña Del Mar Chile from the list of recognized books of record in the subdivision relating to dogs; changes the name of the recognized breed of horses registered in the book of record entitled "Stambok over Fjordhest"; and incorporates certain corrections in the names, custodianship and addresses of the associations sponsoring or publishing books of record listed therein. Recognized

91006	Synchrotrons and specially fabricated parts n e c. 4		SATE	None	RO

1 The above revised entry is substituted for the entry presently on the Positive List under Schedule B No. 224010.
 2 The above revised entry is substituted for the entry presently on the Positive List under Schedule B No. 508300.
 3 This GLV dollar-value limit is applicable to all Country Group R destinations, except those in Subgroup A, Hong Kong, and Macao; and to all Country Group O destinations except Mexico. The GLV dollar value limit for shipments to Mexico is \$1,000.
 4 The above revised entry is substituted for the entry presently on the Positive List under Schedule B No. 508100 to clarify the coverage.
 5 The above revised entry is substituted for the two entries presently on the Positive List under Schedule B No. 504710 and 504720. All petroleum asphalt and products classified under this Schedule B number shall be reported in long tons. Formerly this was applicable to unmanufactured petroleum asphalt only.
 6 The above entry is substituted for the entry presently on the Positive List under Schedule B No. 64110.
 7 The Schedule B number is changed from 642010 to 642050.
 8 The above entry is substituted for the entry presently on the Positive List under Schedule B No. 60160.
 9 The above two entries are substituted for the two entries presently on the Positive List under Schedule B No. 618315.
 10 The commodities described in this Positive List entry are exempt from the provisions of General Antidumping License G.L.T. See § 371.9 (c) of this subchapter.
 11 The above entry is substituted for the first entry presently on the Positive List under Schedule B No. 619393.
 12 The above entry is substituted for the entry presently on the Positive List under Schedule B No. 617005.
 13 The above entry is now required on both export license applications and shipper's export declarations for these commodities.
 14 The above two entries are substituted for the two entries presently on the Positive List under Schedule B No. 617905.
 15 The Schedule B number is changed from 619350 to 618830.
 16 The above entry is substituted for the second entry presently on the Positive List under Schedule B No. 618971.
 17 The Schedule B number is changed from 619150 to 619158.
 18 The above entry is substituted for the second entry presently on the Positive List under Schedule B No. 619910.
 19 The above entry is substituted for the entry presently on the Positive List under Schedule B No. 622087.
 20 The above entry is substituted for the second entry presently on the Positive List under Schedule B No. 630010. Casticized bauxite was formerly classified under Schedule B No. 833900.
 21 The above two entries are substituted for the entry presently on the Positive List under Schedule B No. 630070. Aluminum silicon was formerly included in the second entry on the Positive List under Schedule B No. 630010.
 22 The above entry is substituted for the second entry presently on the Positive List under Schedule B No. 630301.
 23 The word "primary" is changed to "semifabricated."
 24 The above two entries are substituted for the entry presently on the Positive List under Schedule B No. 650390. All antifriction metal dress and scrap and Babbitt metal dress and scrap were formerly classified under Schedule B No. 656501.
 25 The above entry is substituted for the entry presently on the Positive List under Schedule B No. 651511.
 26 The above entry is substituted for the entry presently on the Positive List under Schedule B No. 654508.
 27 The above entry is substituted for the second entry presently on the Positive List under Schedule B No. 656501.
 28 The unit of quantity found is added.

Dept. of Commerce Schedule B No.	Commodity	Processing Codes
709220	Starting, lighting, and ignition equipment, n. e. c., and specially fabricated parts and accessories, n. e. c.: Automobile, bus, tractor, truck, and industrial engine type (specify by name) (report spark plugs in 709030) (see § 373.7 of this subchapter).	TRAN 6
709365 701205	Insulated wire and cable: Automotive ignition wire in coils, reels, or spools in lengths of 100 feet or less. Parts and accessories specifically ordered and invoiced as original equipment for passenger, commercial, and military vehicles previously shipped (include only normal and usual parts and accessories for which no additional charge is being made—such items having been either in short supply or inadvertently omitted at the time of the original shipment of the vehicles).	TRAN 6 TRAN 6
702610	Parts and accessories, n. e. c., specially fabricated, for assembly, except: air cleaners; ammeters; brake extension handles; bumpers; clearance lights; dashboard plugs; door locks; fog lights; heaters; horns; hub caps; hydraulic truck dumping hoists; lighters; oil filter clamps; oil filters; oil pressure switches; oil purifiers; oil rectifiers; parking lights; power take-offs for trucks; radiator caps; radiator ornaments; reflex signals, road traffic; shock absorbers; speedometers; spotlights; stop lights; taxicab meters; thermostats; third axle assemblies; tire locks; windshield wipers; and specially fabricated parts for the excepted items (excludes accessories and complete knockdown vehicles; complete knockdown vehicles should be reported in the proper car, truck, or bus classification, whether the integral components are shipped simultaneously or in a series of partial shipments).	TRAN 6

This amendment shall become effective as of 12:01 a. m., January 2, 1953, with the exception of Item 1 which shall become effective as of 12:01 a. m., January 9, 1953, and of Items 3 and 4 which shall become effective as of January 1, 1953.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations as a result of changes set forth in Part 1 of this amendment which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., January 9, 1953, may be exported under the previous general license provisions up to and including February 1, 1953. Any such shipment not laden aboard the exporting carrier on or before February 1, 1953, requires a validated license for export.

TITLE 26—INTERNAL REVENUE

Chapter 1—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes [T. D. 5971, Regs. 111]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

INCOME PURSUANT TO AWARD OF INTERSTATE COMMERCE COMMISSION

On November 15, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 10464) to conform Regulations 111. (26 CFR, Part 29) to section 611 of the Revenue Act of 1951, approved October 20, 1951. No objections to the rules proposed having been received within the thirty days fol-

lowing such publication, the amendments set forth below are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 29.42-1 the following:

SEC. 611. INCOME PURSUANT TO AWARD OF INTERSTATE COMMERCE COMMISSION (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) Notwithstanding section 42 of the Internal Revenue Code, amounts received, pursuant to an award under the order issued under the Railway Mail Pay Act of 1916 by the Interstate Commerce Commission on December 4, 1950, as compensation for the transportation of mail during 1950 and prior years shall be deemed to be income which accrued in the taxable years in which the services to which such compensation relates were rendered. Notwithstanding section 292 of such code, no interest shall be assessed or collected for any period prior to July 1, 1951, with respect to that part of any deficiency which the Secretary determines to be attributable to the inclusion of income in a taxable year by reason of the application of this section. Any deficiency attributable to the inclusion of income in any taxable year by reason of the application of this section may be assessed at any time prior to the expiration of the period for assessment with respect to the taxable year of the taxpayer which includes December 4, 1950, notwithstanding the provisions of section 275 of the Internal Revenue Code or any other provision of law or rule of law which would otherwise prevent such assessment.

PAR. 2. Section 29.42-1 (a) as amended by Treasury Decision 5405, approved September 22, 1944, is further amended by adding at the end thereof the following new sentence: "As to amounts received, pursuant to an award under the order issued on December 4, 1950, under the Railway Mail Pay Act of 1916 by the Interstate Commerce Commission, as compensation for the transportation of mail during 1950 and prior years, see section 611 (a) of the Revenue Act of 1951."

PAR. 3. Section 29.275-1, as amended by Treasury Decision 5942, approved October 24, 1952, is further amended by inserting immediately preceding the next to last undesignated paragraph thereof the following new paragraph (s):

(s) Any deficiency attributable to the inclusion of income in any taxable year

by reason of the application of section 611 (a) of the Revenue Act of 1951 (which qualifies section 42 with respect to the taxable year in which amounts received, pursuant to an award under the order issued on December 4, 1950, under the Railway Mail Pay Act of 1916 by the Interstate Commerce Commission, as compensation for the transportation of mail during 1950 and prior years are to be included in income) may be assessed at any time prior to the expiration of the period for assessment with respect to the taxable year of the taxpayer which includes December 4, 1950, notwithstanding the provisions of section 275 or of any other provision of law or rule of law, such as the provisions of section 3760 or the doctrine of res judicata, which would otherwise prevent such assessment.

PAR. 4. There is inserted immediately preceding section 293 the following:

SEC. 611. INCOME PURSUANT TO AWARD OF INTERSTATE COMMERCE COMMISSION (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(b) Section 292 (relating to interest on deficiencies) is hereby amended by adding at the end thereof the following new subsection:

(d) With respect to any corporation entitled to receive payment for the transportation of United States mail, if an award is retroactively received for the transportation of United States mail, and if such award is required to be treated as income in the year or years in which the mail was carried, then, notwithstanding the provisions of subsection (a) of this section, no interest shall be due, with respect to any period prior to thirty days after such award is granted, for tax deficiencies resulting from the inclusion of such additional mail payments retroactively.

(53 Stat. 32, 467; 26 U. S. C. 63, 3701)

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of
Internal Revenue.

Approved: January 8, 1953.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 53-275; Filed, Jan. 12, 1953;
8:48 a. m.]

Subchapter C—Miscellaneous Excise Taxes [Regs. 119]

PART 324—EXCISE TAX ON DIESEL FUEL Correction

In F. R. Doc. 53-25, appearing at page 63 of the issue for Saturday, January 3, 1953, the following changes should be made:

1. The designation for the section following § 324.30 should read "324.31" instead of "§ 3.31"

2. The designation and headnote of section 3770, in the second column of page 66, should read:

SEC. 3770. AUTHORITY TO MAKE ABATEMENTS, CREDITS, AND REFUNDS.

**TITLE 32A—NATIONAL DEFENSE,
APPENDIX**

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 22, Supplementary Regulation 26, Amdt. 1]

**CPR 22—MANUFACTURERS' GENERAL
CEILING PRICE REGULATION**

**SR 26—ADJUSTED CEILING PRICES FOR
CERTAIN MANUFACTURERS OF PLUMBING
FIXTURES**

**ADJUSTMENT FOR ENAMELED CAST IRON
PLUMBING FIXTURES**

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Supplementary Regulation 26 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to SR 26 to CPR 22 establishes new adjusted ceiling prices for enameled cast iron plumbing fixtures. When SR 26 was issued May 15, 1952, ceiling prices for this classification of commodities were established at 95 percent of applicable GPCR ceiling prices. This amendment increases the ceiling prices which were in effect just prior to the issuance of this amendment by establishing them at 96.75 percent of GPCR ceiling prices.

At an enameled cast iron plumbing fixtures industry advisory committee meeting on October 3, 1952, OPS was requested to conduct an earnings survey of the industry, the opinion of the members attending being that the level of earnings for the industry had fallen below that prescribed by the industry earnings standard. This standard requires that ceiling prices be adjusted for an industry if its current earnings fall below 85 percent of the average earnings of the three best years of the years 1946 through 1949, inclusive, adjusted for changes in net worth.

Consequently, the Office of Price Stabilization undertook an earnings survey of the industry, as a result of which the Director of Price Stabilization has determined that in order for ceiling prices of the industry to meet the requirements of the industry earnings standard, and, therefore, to be generally fair and equitable, they would have to be increased to the extent provided in this action.

In computing this adjustment, OPS gave consideration, among other costs, to increases in the cost of the metals listed in GOR 35, and to the increased cost of outbound transportation. For that reason, enameled cast iron plumbing fixture manufacturers are precluded by this amendment from using either GOR 35 or SR 35 to CPR 22.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Supplementary Regulation 26 to Ceiling Price Regulation 22 is amended in the following respects:

1. Paragraph (a) of section 3 is amended to read:

Sec. 3. Ceiling prices—(a) Enameled cast iron plumbing fixtures. If you are a manufacturer of any commodity listed in Appendix A of this supplementary regulation, your ceiling price for the sale of any of those commodities is your ceiling price under the GPCR reduced by 3.25 percent (i. e., 96.75 percent of your GPCR ceiling price)

2. The caption of section 4 is amended to read: *Sec. 4. Relation to other regulations.*

3. A new paragraph (c) is added at the end of section 4 to read:

(c) Relation to GOR 35, SR 35 to CPR 22. You may not use the provisions of GOR 35 (pass-through of increased cost of steel, aluminum, copper and pig-iron) or SR 35 to CPR 22 (adjustments to reflect increase in cost of outbound transportation) for any commodities which you manufacture and which are listed in Appendix A of this supplementary regulation.

If you have already effected any adjustment of your ceiling prices for such commodities pursuant to the provisions of GOR 35 or SR 35 to CPR 22, you must recalculate your ceiling prices for such commodities as provided in section 3 (a) of this supplementary regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 244.)

Effective date. This Amendment 1 to SR 26 to CPR 22 is effective January 17, 1953.

**JOSEPH H. FREEHILL,
Director of Price Stabilization.**

JANUARY 12, 1953.

[F. R. Doc. 53-393; Filed, Jan. 12, 1953; 4:00 p. m.]

[Ceiling Price Regulation 30, Amdt. 44]

**CPR 30—MACHINERY AND RELATED
MANUFACTURED GOODS**

REVISIONS IN LIST PRICES AND DISCOUNTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738) this amendment to Ceiling Price Regulation 30 is hereby issued.

STATEMENT OF CONSIDERATIONS

Two and one-half years have elapsed since the outbreak of the Korean War, since which time the relationship between list prices and discounts of manufacturers has been frozen by this Agency. During this period many changes in costs and marketing conditions have taken place which have caused many discount structures and list prices to become seriously unbalanced. In order

to achieve more competitive marketing and distribution methods many manufacturers find it necessary today to change some of their discounts and list prices. This amendment permits manufacturers covered by Ceiling Price Regulation 30 to apply for approval of such changes, providing they do not result in increases in the level of ceiling prices presently prevailing under the regulation.

A manufacturer who proposes to change discounts and list prices must first apply to OPS under this amendment. He must show his present and proposed discounts and list prices. He must be able to demonstrate that had the proposed discounts and list prices been in effect during his last accounting period, they would not have yielded sales revenue greater than was actually realized in this period. Of course, resellers cannot use such revised price lists until the manufacturer receives approval of these lists pursuant to Supplementary Regulation 2 to Ceiling Price Regulation 67.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 30 is amended in the following respects:

Section 3 (d) is amended to read as follows:

(d) Notwithstanding any of the foregoing provisions of this section, you may apply to the Director of Price Stabilization for approval of revised price lists and/or discounts for sales to resellers if the revision you propose does not increase your total revenue based upon the total sales of the commodities affected during your most recent accounting period of not less than six months. Before any revised price lists or discounts proposed under the provisions of this paragraph may be put into effect, you must file the application required by subparagraph (1) of this paragraph with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., and receive written approval from the Director of Price Stabilization. The Director may approve, disapprove, modify, or request further information concerning any application under this paragraph.

(1) *Application.* Your application must refer specifically to this section, section 3 (d) of CPR 30, and contain the following information:

(i) Your business name and address.
(ii) If you are proposing to revise your list prices, a copy of your present list prices and your proposed list prices covering the commodities affected by the proposed revision.

(iii) If you are proposing to revise your discount schedules (either in conjunction with a revision of your list prices or without revising your list

prices) a copy of your present discount schedule and your proposed discount schedule covering the commodities affected by the proposed revision.

(iv) A statement of the total revenue from sales of commodities affected by the proposed revision or revisions in your list prices and/or discount schedule during your most recent accounting period of not less than six months.

(v) A statement of what the total revenue from the sales of commodities affected by the proposed revision or revisions would have been during the period specified in subdivision (iv) had your proposed price list and/or discount schedule been in effect.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154).

Effective date. This amendment is effective January 12, 1953.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

JANUARY 12, 1953.

[F. R. Doc. 53-389; Filed, Jan. 12, 1953;
10:52 a. m.]

[General Overriding Regulation 27, Amdt. 5]
GOR 27—APPROVAL OF PRICES IN LONG-TERM CONTRACTS FOR SALES OF CERTAIN COMMODITIES

PORTLAND CEMENT

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 5 to General Overriding Regulation 27 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds to the commodities covered by General Overriding Regulation 27 (GOR 27), Portland cement when sold by the manufacturers of the cement. GOR 27 permits a seller to sell the commodities specified therein in accordance with a long-term contract made prior to price control upon his filing of an application requesting permission to put into effect the pricing provisions of the contract in lieu of his present ceiling prices. The statement of considerations accompanying the issuance of GOR 27 pointed out that the regulation is limited solely to situations where sellers entered into long-term contracts covering the specific commodities described in the regulation in good faith prior to price control and then found themselves unable, because of price control, to put into effect certain pricing provisions of the contract. The use of such contracts may be approved by the Office of Price Stabilization under certain conditions, one of which is that the contract price does not exceed the prevailing ceiling price for the commodity involved.

The Director of Price Stabilization has found a similar situation affecting sales of Portland cement by manufacturers, in which the same considerations are pres-

ent. Therefore, the scope of GOR 27 is extended to include Portland cement when sold by manufacturers.

In view of the corrective nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

General Overriding Regulation 27, as amended, is further amended in the following respects:

1. Section 2 is amended by substituting a comma for the period at the end of section 2, and adding the following:

(d) Portland cement sold by Portland cement manufacturers.

2. A new section 6 is added to read as follows:

Sec. 6. Definitions. The following definitions shall be controlling in the application of this regulation:

Portland cement. This term includes standard Portland cement, special Portland cement, such as high early strength masonry or mortar, low and moderate heat, oil-well sulphate resisting, white Portland, or any other cement generally classified as special Portland cement.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154).

Effective date. This amendment is effective January 17, 1953.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

JANUARY 12, 1953.

[F. R. Doc. 53-394; Filed, Jan. 12, 1953;
4:00 p. m.]

[General Overriding Regulation 35, Amdt. 6]

GOR 35—PASS-THROUGH FOR STEEL, PIG IRON, COPPER AND ALUMINUM COST INCREASES

ADDITION OF ENAMELED CAST IRON PLUMBING FIXTURES TO APPENDIX C

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 6 to General Overriding Regulation 35 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds enameled cast iron plumbing fixtures to Appendix C of GOR 35. The purpose and effect of listing certain commodities in this appendix are explained in detail in the statement of considerations which accompanied Amendment 1 to GOR 35. The same considerations apply to the issuance of this amendment. This amendment is occasioned by the issuance of Amendment 1 to Supplementary Regulation 26 to Ceiling Price Regulation 22 which provides for an increase in ceiling prices for sales by manufacturers of enameled cast iron plumbing fixtures, an adjustment which includes the metals cost increases. No addition is made to Appendix D (permissible pass-through for manufacturing users) by this Amendment. Manufacturers' sales of

these commodities are made to resellers who are not covered by GOR 35.

Due to the nature of this amendment, special circumstances have made general consultation with industry representatives, including trade association representatives, impracticable. However, consultations with representatives of the enameled cast iron plumbing fixtures industry were held prior to the issuance of Amendment 1 to SR 26 to CPR 22.

AMENDATORY PROVISIONS

General Overriding Regulation 35 is amended as follows:

Appendix C is amended by adding to the column headed "Commodity" the words "Enameled cast iron plumbing fixtures" and, opposite this designation, to the column headed "Regulation" the words "SR 26 to CPR 22."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment 6 to GOR 35 is effective January 17, 1953.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

JANUARY 12, 1953.

[F. R. Doc. 53-395; Filed, Jan. 12, 1953;
4:00 p. m.]

[General Overriding Regulation 42]

GOR 42—ADJUSTMENTS UNDER THE INDUSTRY EARNINGS STANDARD FOR MACHINERY AND RELATED MANUFACTURED GOODS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this General Overriding Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This General Overriding Regulation 42 is issued for the same reasons as GOR 41, "Adjustments Under The Industry Earnings Standard For Consumer Goods," and accomplishes essentially the same results with respect to machinery and related manufactured goods.

Manufacturers of commodities covered by this regulation will be permitted to establish new ceiling prices where it has been found that the level of ceiling prices previously established for the manufacturers' industry is below the minimum prescribed by the "Industry earnings standard" (the "Johnston Standard"). The industry earnings standard provides that the level of ceiling prices for an industry shall normally be considered "fair and equitable" under the Defense Production Act of 1950, as amended, if the dollar profits of the industry amount to not less than 85 percent of the average earnings for the industry's best three years during the period 1946-1949, inclusive, adjusted for changes in net worth.

This general overriding regulation is divided into two parts, Article I and Article II. Article I contains the general regulatory provisions, and Article II contains provisions dealing with each in-

dustry for which an adjustment is granted. From time to time commodities will be added to the coverage of the regulation by the addition of separate sections to Article II. Each section in Article II will include a description of the commodity covered, the price which may be adjusted, the percentage adjustment, and provisions dealing with the applicability of other adjustment regulations, such as GOR 35 (Pass Through For Steel, Pig Iron, Copper and Aluminum Cost Increases)

All provisions of the basic regulations which would otherwise be applicable to the commodities and which are not inconsistent with this regulation remain in effect.

The first commodities to be covered by this general overriding regulation are industrial scales and balances, accessories, attachments, and repair parts for such commodities.

The industrial scales and balances industry on June 25, 1952, at a formal meeting of their Industry Advisory Committee, requested the Office of Price Stabilization to conduct an industry earnings standard survey in order to determine whether this industry was entitled to an increase in ceiling prices.

The survey under this standard for the industrial scales and balances industry has recently been completed, and, based upon the financial data obtained from representative groups of manufacturers in this industry, it has been determined that in order to bring the dollar profits of this industry up to the earnings standard established by OPS, ceiling prices will have to be established at 106 percent of the industry's ceiling prices for these commodities (exclusive of any adjustments under SR-9 to CPR 30, or SR 122 to the GCFR) in effect during the period from October 1, 1952, to the issue date of this regulation.

This adjustment reflects all increases in materials, wages, and transportation which are currently in effect with the exception of increases which are permitted by General Overriding Regulation 35 (Pass Through For Steel, Pig Iron, Copper and Aluminum Cost Increases). Therefore, manufacturers of industrial scales and balances who use this general overriding regulation may adjust their ceiling prices under GOR 35 in addition to utilizing the adjustment permitted by this regulation. However, the adjustment permitted by this regulation only reflects increases in outbound transportation costs occurring before the issue date. If increases in these costs occur in the future, adjustments may be made for such increases pursuant to SR 9 to CPR 30 or SR 122 to the GCFR (Adjustments to Reflect Increased Outbound Transportation Costs) whichever is applicable. If manufacturers have taken any adjustments under SR 9 to CPR 30 or SR 122 to the GCFR before the issue date of this regulation, they must deduct the amount of such adjustments before taking the adjustment permitted by the regulation.

The survey upon which this adjustment is based was carried out by the use of a procedure designated as "streamlined" by OPS, and since this procedure

does not permit consideration of various factors which may be considered under a "full-scale" industry earnings standard survey, which necessarily requires more detailed data and therefore a greater length of time to conduct, the members of this industry may at any time request OPS to conduct a "full-scale" survey.

In the formulation of this regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations. In the judgment of the Director the provisions of this general overriding regulation are generally fair and equitable; are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended; and comply with the applicable standards of that act.

REGULATORY PROVISIONS

Article I—General Regulatory Provisions

Sec.

1. What this regulation does.
2. Ceiling prices for commodities dealt in during the adjustment period.
3. Ceiling prices for commodities which cannot be determined under section 2.
4. Records and reports.

Article II—Commodities Covered

20. Industrial scales and balances.

AUTHORITY: Sections 1 to 20 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

ARTICLE I—GENERAL REGULATORY PROVISIONS

SECTION 1. What this regulation does. This regulation is issued to give effect to adjustments which the Director of Price Stabilization has determined are necessary to meet the industry earnings standards established by OPS. This regulation permits you, if you are a manufacturer of commodities listed in Article II of this regulation, to use new ceiling prices determined under this regulation in place of those previously established under the applicable ceiling price regulation, such as GCFR or CPR 30. All provisions of those regulations otherwise applicable to you and not inconsistent with this regulation remain in effect.

SEC. 2. Ceiling prices for commodities dealt in during the adjustment period. You determine your ceiling price to each of your classes of purchasers for the sale of a commodity listed in Article II by multiplying the adjustment period price for the commodity, prescribed by the applicable section of Article II, by the percentage adjustment also set forth in that section. This section, however, applies only to commodities which you actually sold or offered for sale during the adjustment period unless the applicable section of Article II provides otherwise. Further, each section of Article II contains special provisions with respect to other adjustment regulations.

SEC. 3. Ceiling prices for commodities which cannot be determined under section 2. If you cannot determine a ceiling price for the sale of a commodity

under section 2 because it was first offered for sale or was modified after the applicable adjustment period, you must determine your ceiling price for such a commodity under whichever of the following paragraphs that is applicable:

(a) **CPR 30—(1) Section 8—Modified commodities.** If you are covered by CPR 30 and if the CPR 30 ceiling price of the commodity in question must be determined under section 8 of CPR 30, you may use as the ceiling price of the commodity before modification the ceiling price for that commodity determined under this regulation.

(2) **Section 9—Base period prices computed by formula.** If you are covered by CPR 30 and if in determining the CPR 30 ceiling price for the commodity in question you must first determine a base period price under section 9 of CPR 30 you may treat the finally determined CPR 30 ceiling price as an adjustment period price under section 2 of this regulation.

(3) **Section 43a.** If you are covered by CPR 30 and if you must determine your ceiling price for the commodity in question under section 43a of CPR 30 after the applicable adjustment period under this regulation you may not use this regulation to adjust the ceiling price of such a commodity.

(b) **GCFR—(1) Section 4—Manufacturer's ceiling prices for new commodities falling within categories dealt in during the base period.** If you are covered by the GCFR and if the GCFR ceiling price for the commodity in question must be determined under section 4 of the GCFR, you may use as the ceiling price of the "comparison commodity" the ceiling price for that "comparison commodity" determined under this regulation.

(2) **Section 6 and section 7—Ceiling prices for commodities in new categories, for new services, and for new sellers; and sellers who cannot price under other sections.** If you are covered by the GCFR and if you must determine your ceiling price for the commodity in question under sections 6 or 7 of the GCFR you may not use this regulation to adjust the ceiling price of such a commodity.

SEC. 4. Records and reports—(a) Records. In addition to the records and reports required by other OPS regulations applicable to you, you must prepare and preserve for the life of the Defense Production Act of 1950, as amended, and for two years thereafter, all records necessary to determine whether you have correctly computed your adjusted ceiling prices under this regulation.

(b) **Reports.** The Director of Price Stabilization may from time to time require information or reports subject to the approval of the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

ARTICLE II—COMMODITIES COVERED

SEC. 20. Industrial scales and balances—(a) Commodities included. Industrial scales and balances including attachments and repair parts. The following are illustrations of these commodities: bench and portable scales; floor or dormant scales; predetermined weight scales; special purpose industrial

scales; miscellaneous industrial scales, such as crane, suspension, tank, hopper, continuous flow, etc. and attachments, such as over-and-under balance indicators, weight recorders, test weights, etc. This classification does not include retail and commercial scales; household, baby, or person weighing scales; parcel post scales; and laboratory scales.

(b) *Adjustment period price.* The adjustment period price for any commodity included in paragraph (a) of this section 20 is the highest ceiling price to each class of purchaser in effect during the period October 1, 1952, to January 12, 1953.

(c) *Percentage adjustment.* The percentage adjustment for commodities included in this section 20 is 106 percent.

(d) *Relationship of the adjustment authorized by this section 20 to other adjustment regulations.*—(1) *Capehart regulations.* If the adjustment period price for any commodity covered by this section 20 includes an adjustment determined under any of the applicable "Capehart regulations" (SR 4, SR 5 or SR 8 to CPR 30; GOR 20, or GOR 21) such a price may be adjusted by the percentage adjustment provided by paragraph (c). However, if the adjustment period price does not include a "Capehart" adjustment, such an adjustment may not now be determined in addition to the adjustment permitted by paragraph (b) but any manufacturer of commodities covered by this section 20 may elect to use the "Capehart regulations" instead of this regulation.

(2) *GOR 35.* Manufacturers of commodities included in paragraph (a) of this section 20 may adjust their ceiling prices under GOR 35 (Pass Through For Steel, Pig Iron, Copper and Aluminum Cost Increases) in addition to using the adjustment permitted by this regulation.

(3) *Outbound transportation costs.* Adjustments permitted by SR 9 to CPR 30 or SR 122 to the GPCR (Adjustments To Reflect Increased Outbound Transportation Costs) for increases occurring before January 12, 1953, may not be included in the adjustment period price for any commodity covered by this section 20. Further, if the highest ceiling price of the commodity in question during the adjustment period included an adjustment for increased outbound transportation cost under either SR 9 to CPR 30 or SR 122 to the GPCR, this ceiling price must be reduced by the dollar amount of the transportation cost adjustment before it may be used as an adjustment period price. However, if increases in these costs occur after January 12, 1953, an adjustment therefor may be determined in accordance with SR 9 to CPR 30 or SR 122 to the GPCR, whichever is applicable.

Effective date. This regulation is effective January 12, 1953.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

JANUARY 12, 1953.

[F. R. Doc. 53-391; Filed, Jan. 12, 1953; 10:52 a. m.]

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

FISHING IN YOSEMITE AND OLYMPIC NATIONAL PARKS

1. Paragraph (a) *Fishing* of § 20.16 *Yosemite National Park* is amended to read as follows:

(a) *Fishing*—(1) *Open season.* The open season for fishing within the Park shall begin one hour before sunrise on May 30 and shall end one hour after sunset on October 15.

(2) *Open and closed waters.* The waters of Lake Eleanor and its tributaries for a distance of 1 mile from the lake are closed to fishing. All other lakes are open to fishing.

(3) *Limit of catch.* The number of fish that may be taken by any one person in any one day shall not exceed ten fish, or ten pounds and one fish. Possession of more than one day's catch limit by any person at any one time is prohibited.

(4) *Fishing from horseback.* Fishing from horseback in any lake or stream is prohibited.

(5) *Gathering or securing grubs.* Gathering or securing grubs for bait through the destruction or tearing apart of down trees or logs within sight of roads, trails or inhabited areas is prohibited.

(6) *No size limit.* Trout of any size may be retained as part of the creel limit of an individual angler. All fish regardless of size which are seriously injured must be kept as part of the legal catch of the angler.

2. Subparagraph (2) of paragraph (a) *Fishing - open season* of § 20.28 *Olympic National Park* is amended to read as follows:

(2) The following streams or portions thereof are open to fishing for steelhead only from the first Sunday of December to February 28, inclusive; all tributaries thereof are closed except as otherwise indicated.

Bogachiel River.
Dosewallips River below falls.
Queets River below Tshitsky Creek.
Calawah River.
Hoh River, including South Fork.
Quinalt River, including the North Fork below the south line of Sec. 12, T. 24 N., R. 8 W., and the East Fork below Graves Creek.
Soleduck River below the North Fork Soleduck.

3. Subparagraph (2) of paragraph (d) *Fishing; limit of catch and in possession* of § 20.28 *Olympic National Park* is amended to read as follows:

(2) Between the first Sunday of December and February 28, inclusive, the limit of catch of steelhead shall not exceed 3 fish per person per day, 6 fish per week, or 24 fish per winter season less the number of steelhead caught by each person in the State of Washington outside Olympic National Park. Each person possessing a State of Washington fishing license shall account for his catch of steelhead in the park in the manner re-

quired by the State of Washington for fish caught outside the park.

(Sec. 3, 39 Stat. 535, as amended, sec. 200, 48 Stat. 205, 16 U. S. C. 3, 40 U. S. C. 409)

Issued this 7th day of January 1953.

OSCAR L. CHAPMAN,
Secretary of the Interior.

[F. R. Doc. 53-261; Filed, Jan. 12, 1953; 8:45 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 3—RADIO BROADCAST SERVICES

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 3—Radio Broadcast Services, of the Commission's rules and regulations, Standards of Good Engineering Practice Concerning Standard Broadcast Stations, and Standards of Good Engineering Practice Concerning FM Broadcast Stations.

1. The Commission has before it for consideration Part 3 of its rules and regulations relating to Radio Broadcast Services, and the Standards of Good Engineering Practice Concerning Standard and FM Broadcast Stations.

2. The Commission has reviewed the foregoing provisions of its rules and regulations and has adopted rule changes set forth below in order to bring them up-to-date, delete obsolete provisions and eliminate inconsistencies. Following is a summary of the amendments and the reasons therefor.

(1) Section 24 of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations (hereinafter referred to as SOGEP-AM) and section 19 of the Standards of Good Engineering Practice Concerning FM Broadcast Stations (hereinafter referred to as SOGEP-FM) set forth the various application forms that may be used to request various authorizations. However, since the material in these sections is also contained in Parts 1 and 3 of the rules, section 24 of SOGEP-AM and section 19 of SOGEP-FM are being deleted.

(2) The footnotes to §§ 3.24, 3.31, 3.43 and 3.62 all refer to section 24 of SOGEP-AM, which we are now deleting. Therefore, these footnotes have been altered to indicate the appropriate form to be used.

(3) Section 18 of SOGEP-AM tabulates the minimum sums of money required to construct various classes of stations. The figures shown are based on prewar construction costs, and therefore, are not indicative of present conditions. Since it does not appear practical to keep such a list current, this section is being deleted.

(4) Footnote 4 to § 3.24 refers to section 18 of SOGEP-AM, which we are deleting. Therefore, this footnote is also being deleted.

(5) Footnote 11 to § 3.32 indicates that special authorizations may be granted in accordance with § 1.324. Since § 1.324 has previously been amended to preclude the grant of special temporary authori-

zations for standard broadcast stations footnote 11 of § 3.32 is being deleted.

(6) Footnote 1 in § 3.41 refers to the wrong rule number; and since the footnote is in itself unnecessary, it is being deleted.

(7) Section 3.43 is being amended to clarify its meaning.

(8) Section 3.51 contains a provision which states that after June 1, 1941, all stations will be required to change over to direct measurement of power. Since this date has passed, § 3.51 is being amended to delete the reference to the June 1941 date. In addition, paragraph (c) of this section which concerns the taking of new antenna resistance measurements after making changes in the antenna system, should logically appear in the section of the rules dealing with the radiating system. Accordingly, § 3.51 is also being amended to delete paragraph (c) and the deleted provision is being inserted in the section of the rules dealing with the radiating system. (Sec. 3.45.)

(9) Section 12F of SOGEP-AM relates to the operating requirements of a standard broadcast station. Subsections (1), (2) (4) (5) and (6) however, are duplicated in §§ 3.55, 3.46, 3.57, and 3.59 of the rules and are therefore being deleted from the standards. Subsection (3) of section 12F should more appropriately be contained in the rules under the section relating to transmitters and is, therefore, being deleted from the standards and is being inserted in § 3.46 of the rules.

(10) Sections 3.46 and 3.254 contain footnotes which (a) extended until 1949 the date when the requirement that transmitter measurements be made became effective, and (b) indicated that application for renewal of license filed after 1950 should indicate that such measurements were made. Since the measuring requirements became effective in 1949 and measurements must now be made, the footnotes no longer serve a useful purpose and are being deleted. Subsection 12F (3) of SOGEP-AM, which is being deleted (see par. (9) above) is being added to § 3.46.

(11) Footnote 2 in § 3.52 makes incorrect references to various sections of the rules. This section is being amended to indicate the correct section numbers.

(12) Section 3.54 provides in part, that the direct measurement of antenna input power will be accepted as the operating power and that a licensee will be authorized to operate by this method of power determination upon submission to and approval by the Commission of antenna resistance measurements. This provision seems to indicate that other methods of determining operating power would be acceptable. However, all stations, following completion of construction, are now required to file antenna resistance measurements together with a description of the method used, as part of their license application (FCC Form 302) and are also required to determine operating power by the direct method (§ 3.51). Therefore, the above provision of § 3.54 is being deleted.

(13) Section 3.57 states that the operating power shall be maintained within prescribed limits, and section 11 of

SOGEP-AM sets forth the limits. Section 11 is being deleted and the provisions contained therein are being added to § 3.57 in order to make the section complete within itself.

(14) Section 11 of SOGEP-AM is being deleted to avoid duplication. (See par. 13 above.)

(15) Section 3.59 of the rules and section 15 B (2) of SOGEP-AM contain references to the 50-cycle frequency tolerance which was allowed up to January 1, 1942. Since that date, all stations have been required to maintain a 20-cycle tolerance. Therefore, all references to the 50-cycle tolerance are being deleted from these sections.

(16) Footnote 47 to § 3.191 contains a reference to a requirement for applications concerning programs to be broadcast to foreign countries. Section 1.327 now provides that, under certain conditions, informal applications may be filed. Therefore, footnote 47 is being altered to make reference to § 1.327.

(17) Sections 3.221, 3.521, 3.632 and 3.721 relate to temporary extensions of station licenses. When § 1.384 which deals with the same subject matter was amended in August 1952, the above sections were not amended to conform with § 1.384. However, it is believed that the provisions in § 1.384 are adequate and that the provisions in §§ 3.221, 3.521, 3.632, and 3.721 are unnecessary. Accordingly, the above sections in Part 3 are being deleted.

(18) Sections 3.267 and 3.567 provide that the operating power shall be determined by methods prescribed in SOGEP-FM. In order to make these sections complete within themselves, section 11 of SOGEP-FM is being deleted, and the provisions contained therein are being added to the above sections in Part 3.

(19) Section 3.621 contains an incorrect reference to a subparagraph and a misspelled word. The correct reference and spelling is being supplied.

(20) Section 3.630 specifies the normal license period for television broadcast stations. Licenses expire in accordance with a schedule based on the geographical location of the station. Footnote 11 of this section specifies the procedure that applied during the transition period when the present form of the rule was adopted. This footnote is therefore no longer necessary and is being deleted. This section also contains references to specific years when licenses for stations in certain states were to expire under the procedure prescribed by this section. The year designations are also no longer necessary and are being deleted.

(21) Section 3.651 contains incorrect references to subparagraphs. The correct references are being supplied.

(22) Section 3.681 contains definitions of various television terms. These are being amended as follows:

(a) Paragraph (d) defines the term "aspect ratio" as "The numerical ratio of the frame width to frame height, as transmitted." However, the definition in this form is not clear and is being amended for clarification.

(b) Paragraph (f) defines the term "black level" as "The amplitude of the

modulating signal corresponding to the scanning of a black area in the transmitted picture." This definition is incorrect since the term "amplitude" means the largest value rather than the absolute value. Accordingly, the definition is being amended by the substitution of the term "magnitude" for "amplitude."

(c) Paragraph (k) defines effective radiated power in terms of peak input power. This is only true with respect to visual input power and does not apply to aural input power. Therefore, the word "peak" is being deleted from this rule.

(d) Paragraph (w) defines the term "positive transmission." However, since this term is not employed in the United States television standards and does not appear in the Commission's rules and regulations, the definition is being deleted.

(e) Paragraph (x) defines the term "progressive scanning." However, since this term is not employed in the United States television standards and does not appear in the Commission's rules and regulations, the definition is being deleted.

(23) Section 3.682 (a) (12) states that "The pedestal level (normal black level) shall be transmitted at 75 percent (with tolerance of plus or minus 2.5 percent) of the peak carrier amplitude." The use of the term "amplitude" in this rule is incorrect for the same reason as that referred to in connection with the use of this term in § 3.681 (f) discussed above. Accordingly, this section is being amended by the substitution of the term "level" for "amplitude."

(24) Section 3.687 contains a footnote which should more appropriately be divided into two parts. The form of the footnote is therefore being amended accordingly.

(25) Section 1 of SOGEP-AM was amended in February 1947 to provide that the separation required for daytime protection of Class IV stations would also determine the nighttime separation. However, through inadvertence, Table IV of this section was not similarly amended. In order to correct this error the provisions in Table IV prescribing a nighttime normally protected contour and the permissible nighttime interfering signal on the same channel for a Class IV station are being deleted.

(26) The first four paragraphs of section 4 of SOGEP-AM set forth information to be supplied with an application for approval of transmitter sites. This information, however, is not consistent with that required by the application form. Since the application form speaks for itself, the above paragraphs in section 4 are unnecessary and are being deleted.

(27) Paragraph 7 of section 7 and section 14 of SOGEP-AM make reference to an obsolete form. The correct form number is now being supplied.

(28) Paragraph 8 of section 7 of SOGEP-AM indicates that broadcast stations having a directional antenna may determine power by the direct method. However, all stations are now required to determine power by the di-

rect method. Accordingly, this paragraph is being changed to conform with the new requirements.

(29) The last sentence of section 15A of SOGEP-AM requires manufacturers to keep lists of the sale numbers of frequency monitors sold to licensees. Our experience indicates that this requirement is unnecessary, and this provision is being deleted.

(30) Section 25 of SOGEP-AM contains a table listing the field offices of the Commission. This table has not been kept up-to-date since a similar list appears in Part 0 of the rules. Therefore, the table is being deleted from section 25, and instead a reference is made to Part 0.

(31) The next to the last sentence in section 2C of SOGEP-FM was not deleted when § 3.203 (c) was deleted from the rules. This sentence is now being deleted. The last paragraph of section 2 refers to 1940 minor civil division maps. Since later minor civil division maps are now available, an appropriate change is being made.

3. The amendments adopted herein are editorial in nature, and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately.

4. The amendments adopted herein are issued pursuant to authority contained in sections 4 (i) 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and paragraph F-6 of the Commission's Order Defining the Functions and Establishing the Organizational Structure of the Office of the Secretary, dated February 14, 1962, as amended.

5. It is ordered, That, effective immediately, Part 3 of the Commission's rules and regulations, the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, and the Standards of Good Engineering Practice Concerning FM Broadcast Stations are amended as set forth below.

Adopted: January 5, 1953.

Released: January 7, 1953.

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] T. J. SLOWIE,
Secretary.

1. Section 3.24 is amended as follows:
a. Delete present language of footnote 3 and substitute the following:

³ Formal application required (Forms 301 and 302).

b. Delete footnote 4.

2. Section 3.31 is amended as follows: Delete present language of footnote 10 and substitute the following:

¹⁰ Formal application required (Form 301).

3. Section 3.32 is amended as follows: Delete footnote 11.

4. Section 3.41 is amended as follows: Delete footnote 1 of the table.

5. Section 3.43 is amended to read as follows:

§ 3.43 *Changes in equipment; authority for* No licensee or permittee shall change, in the last radio stage, the num-

ber of vacuum tubes, nor change to vacuum tubes of different power rating or class of operation, nor shall it change the system of modulation, without authority of the Commission.⁴⁴

⁴⁴ Formal application required. (Forms 301 and 302).

6. Section 3.45 is amended by the addition of paragraph (f) as follows:

(f) Upon making any change in the antenna system, or in the antenna current measuring instruments, or any other change which may change the characteristics of the antenna, the licensee shall immediately make a new determination of the antenna resistance (see § 3.54) and shall submit application for authority to determine power by the direct method on the basis of the new measurements.

7. Section 3.46 is amended as follows:
a. Delete present language of paragraph (c) delete footnotes 16, 17 and 18, and substitute the following:

(c) The station equipment shall be so operated, tuned, and adjusted that emissions are not radiated outside the authorized band which cause or are capable of causing interference to the communications of other stations. Spurious emissions, including radio frequency harmonics, and audio frequency harmonics, shall be maintained at as low a level as practicable at all times in accordance with good engineering practice. In the event interference is caused to other stations by modulating frequencies in excess of 7500 cycles or spurious emissions, including radio frequency harmonics and audio frequency harmonics outside the band plus or minus 7500 cycles of the authorized carrier frequency, the licensee or permittee shall install equipment or make adjustments which limit the emissions to within this band or to such an extent above 7500 cycles as to reduce the interference to where it is no longer objectionable.

b. Delete present language of paragraph (d) and substitute the following:

(d) The audio distortion, audio frequency response, carrier hum, noise level, and other essential phases of the operation which control the external effects shall at all times conform to the requirements of good engineering practice.

8. Section 3.51 is amended as follows: Delete footnotes 19 and 20 and delete present § 3.51 and substitute the following:

§ 3.51 *Operating power; how determined.* (a) The operating power of each station shall be determined by direct measurement of the antenna power in accordance with § 3.54 except as provided for in paragraph (b) of this section.

(b) Operating power shall be determined on a temporary basis by the indirect method by means of the plate input power to the last radio stage in accordance with §§ 3.52 and 3.53:

(1) In case of an emergency, where the licensed antenna system has been damaged by causes beyond the control of the licensee, or

(2) Pending completion of authorized changes in the antenna system.

9. Section 3.52 is amended as follows: Delete present parenthetical reference at the end of footnote 2 contained within this section and substitute the following:

² (See § 3.14 (c) and (d).)

10. Section 3.54 is amended as follows: Delete the present language of the section and footnotes 21 and 22 and substitute the following:

§ 3.54 *Operating power; direct measurement.* (a) The antenna input power determined by direct measurement (the square of the antenna current times the antenna resistance at the point where the current is measured and at the operating frequency) shall be the operating power of the station.¹⁰

(b) If any change is made in the antenna system, or any change made which may affect the antenna system, the method of determining operating power shall be changed immediately to the indirect method.

¹⁰ See Further Requirements for Direct Measurements of Power.

11. Section 3.57 is amended as follows: Delete the present § 3.57 and footnote 23 and substitute the following:

§ 3.57 *Operating power; maintenance of.* (a) The operating power of each station shall be maintained as near as practicable to the licensed power and shall not exceed the limits of 5 percent above and 10 percent below the licensed power, except that in an emergency when due to causes beyond control of the licensee it becomes impossible to operate with full licensed power, the station may be operated with reduced power for a period not to exceed 10 days, provided the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified immediately after the emergency develops and also upon the resumption of licensed power.

(b) In addition to maintaining the operating power within the above limitations, stations employing directional antenna systems shall maintain the ratio of the antenna currents in the elements of the system within 5 percent of that specified by the terms of the license or other instrument of authorization.

12. Section 3.59 is amended to read as follows:

§ 3.59 *Frequency tolerance.* The operating frequency of each station shall be maintained within 20 cycles of the assigned frequency.

13. Section 3.62 is amended as follows: Delete present language of footnote 24 and substitute the following:

²⁴ Formal applications required (Forms 301 and 302).

14. Section 3.191 is amended as follows: Delete present language of footnote 47 and substitute the following:

⁴⁷ See § 1.327 of this chapter.

15. Section 3.221 is deleted.

16. Section 3.254 is amended as follows: Delete footnotes 14 and 15.

17. Section 3.267 is amended to read as follows:

§ 3.267 *Operating power; determination and maintenance of.* (a) The operating power of each station shall be determined by the indirect method. This is the product of the plate voltage (E_p) and the plate current (I_p) of the last radio stage, and an efficiency factor, F ; that is:

$$\text{Operating power} = E_p \times I_p \times F$$

The efficiency factor, F shall be established by the transmitter manufacturer for each type of transmitter for which Commission approval is requested, and shall be specified in the instruction books supplied to the customer with each transmitter. In the case of composite equipment the factor, F shall be furnished to the Commission along with a statement of the basis used in determining such factor.

(b) The operating power of each station shall be maintained as near as practicable to the authorized operating power, and shall not exceed the limits of 5 percent above and 10 percent below the authorized power, except that in an emergency when it becomes impossible to operate with the authorized power, the station may be operated with reduced power for a period not to exceed 10 days, provided the Commission and the Engineer-in-Charge of the radio district in which the station is located shall be notified immediately after the emergency develops, and also upon the resumption of normal operating power.

18. Section 3.501 is amended as follows: Change footnote designator "23" to "1."

19. Section 3.521 is deleted.

20. Section 3.567 is amended to read as follows:

§ 3.567 *Operating power; determination and maintenance of.* (a) The operating power of each station shall be determined by the indirect method. This is the product of the plate voltage (E_p) and the plate current (I_p) of the last radio stage, and an efficiency factor, F ; that is:

$$\text{Operating power} = E_p \times I_p \times F$$

The efficiency factor, F , shall be established by the transmitter manufacturer for each type of transmitter for which Commission approval is requested, and shall be specified in the instruction books supplied to the customer with each transmitter. In the case of composite equipment the factor, F , shall be furnished to the Commission along with a statement of the basis used in determining such factor.

(b) The operating power of each station licensed for transmitter power output above 10 watts shall be maintained as near as practicable to the authorized power, and shall not exceed the limits of 5 percent above and 10 percent below the authorized power, except that in an emergency when it becomes impossible to operate with the authorized power, the station may be operated with reduced power for a period not to exceed 10 days provided the Commission and the Engineer in Charge of the radio district in

which the station is located shall be notified immediately after the emergency develops and also upon the resumption of normal operating power. With respect to each station licensed for transmitter power output of 10 watts or less, the power at which the station is operated may be less than the licensed power, but shall in no event be more than 5 percent above the licensed power. The transmitter of each station shall be so maintained as to be capable of operation at a maximum licensed power.

21. Section 3.621 is amended as follows:

a. Delete the notation "(c)" in the second line of paragraph (a) and substitute therefor the notation (b)

b. Delete the text of paragraph (d) and substitute the following:

(d) An educational station may not broadcast programs for which a consideration is received, except programs produced by or at the expense of or furnished by others than the licensee for which no other consideration than the furnishing of the program is received by the licensee. The payment of line charges by another station or network shall not be considered as being prohibited by this paragraph.

22. Section 3.630 is amended to read as follows:

§ 3.630 *Normal license period.* (a) All television broadcast station licenses will be issued for a normal license period of 1 year. Licenses will be issued to expire at the hour of 3:00 a. m., eastern standard time, in accordance with the following schedule.

(1) For stations located in Delaware, Pennsylvania, Tennessee, Kentucky, Indiana and Texas, August 1.

(2) For stations located in Maryland, District of Columbia, Virginia, West Virginia, Ohio, Michigan, Wyoming, Nevada, Arizona, Utah, New Mexico and Idaho, October 1.

(3) For stations located in North Carolina, South Carolina, Illinois, Wisconsin and California, December 1.

(4) For stations located in Florida, Puerto Rico, Virgin Islands, Iowa, Missouri, Washington, Oregon, Alaska, and Hawaii, February 1.

(5) For stations located in Alabama, Georgia, Minnesota, North Dakota, South Dakota, Montana, Colorado, Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont, April 1.

(6) For stations located in Arkansas, Louisiana, Mississippi, Kansas, Oklahoma, Nebraska, New Jersey and New York, June 1.

23. Section 3.632 is deleted.

24. Section 3.651 is amended as follows: Delete the notation "(b)" in the last line of example (2) and in the last line of the next to the last sentence in example (3) of paragraph (c) (2) (ii) and substitute therefor the notation "(c)" in each case.

25. Section 3.681 is amended as follows:

a. Delete the text of paragraph (d) and substitute the following:

(d) *Aspect ratio.* The ratio of picture width to picture height as transmitted.

b. Delete the text of paragraph (f) and substitute the following:

(f) *Black level.* The magnitude of the modulating signal corresponding to the scanning of a black area in the transmitted picture.

c. Delete the word "peak" from the second line of paragraph (k).

d. Delete paragraph (w).

e. Delete paragraph (x).

f. Redesignate paragraph (y) through (kk) as paragraphs (w) through (ii)

26. Section 3.682 (a) (12) is amended to read as follows:

(12) The pedestal level (normal black level) shall be transmitted at 75 percent (with a tolerance of plus or minus 2.5 percent) of the peak carrier level.

27. Section 3.687 is amended as follows:

a. Delete footnote designator 28 at the end of paragraph (a) (3)

b. Delete the last sentence of footnote 28.

c. Place footnote designator 28a after the words "synchronizing signal" appearing in the second sentence of paragraph (a) (3)

d. Add new footnote 28a as follows:

"The "synchronizing signal" referred to in this section means either a standard synchronizing wave form or any pulse that will properly set the peak.

28. Section 3.721 is deleted.

29. Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

a. Section 1 of these standards is amended as follows: Delete from table IV the last items in the fifth and seventh columns which reads "4000 uv/m (groundwave)" and "200 unv/m" respectively, and substitute in each column the following:

Not prescribed.*

Add the following footnote to Table IV of section 1.

* See Class IV station operation, column 2, page 2, of this section.

b. Section 4 of these standards is amended as follows: Delete first six paragraphs. Section 4 will commence: "The four primary objectives to be obtained—etc."

c. Section 7 of these standards is amended as follows:

i. Delete from the seventh paragraph of this section the following language: "In order to comply with the provisions of § 3.54 the following data should be submitted in duplicate to the Commission in affidavit form, accompanied by duplicate copies of FCC Form 306 properly executed."

Substitute the following in 7th paragraph of section 7 for the above language: "Applications to determine the operating power by the direct method should be filed on FCC Form 302 and should contain the following information:"

ii. Delete from the eighth paragraph of this section the language: "Licensees of broadcast stations authorized to em-

ploy directional antenna systems desiring to determine operating power by the direct measurement of the antenna power shall determine the resistance by the following method:"

The following language is substituted in the eighth paragraph of section 7 for the above: "Antenna resistance for a directional antenna system shall be determined by the following method:"

iii. Delete the language of paragraph (f) and substitute the following: "The license for a station of power of 5 kw or under which employs a directional antenna will specify the antenna resistance as 92.5 percent of that determined at the point of common input. The resistance specified for a power over 5 kw will be 95 percent of that determined at the point of common input."

d. Section 11 of these standards is deleted.

e. Section 12 of these standards is amended as follows:

i. Delete the words "General Operation" from the title.

ii. Delete the first two paragraphs of this section and substitute the following: "The specifications deemed necessary to meet the requirements of § 3.46 with respect to design and construction are set forth below."

iii. Delete subsection F

iv. Redesignate present subsection G as F

f. Section 14 of these standards is amended as follows: In line 4 of (f) change "FCC Form 305" to read as follows: "FCC Form 301."

g. Section 15 of these standards is amended as follows:

i. Delete the last sentence of section 15 (A)

ii. Delete the language of paragraph B (2) of section 15, and substitute therefor the following: "The range of the indicating device shall be at least from 20 cycles below to 20 cycles above the assigned frequency."

h. Section 18 of these standards is deleted.

i. Section 24 of these standards is deleted.

j. Section 25 of these standards is amended as follows: Delete the last sentence of section 25 and the table contained therein and substitute therefor the following: "A list of the radio districts, giving the address of each field office of the Commission and the territory embraced in each district, may be found in Part O of the rules."

30. Standards of Good Engineering Practice Concerning FM Broadcast Stations.

a. Section 2 of these standards is amended as follows:

1. Subsection C. Delete next to last sentence.

ii. Change date in last numbered paragraph from 1940 to 1950.

b. Section 11 of these Standards is deleted.

c. Section 19 of these Standards is deleted.

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICE

MISCELLANEOUS AMENDMENTS

In the matter of amendment of §§ 7.306 (a) (2) 8.355 (a) (2) and 8.359 (b) of the Commission's rules and regulations to effect certain editorial changes therein.

The Commission having under consideration the desirability of making cer-

tain editorial changes in §§ 7.306 (a) (2), 8.355 (a) (2) and 8.359 (b) of its rules and regulations; and

It appearing, that the amendments adopted herein are editorial in nature for the purpose of correcting certain inadvertent errors and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing, that the amendments adopted herein are issued pursuant to authority contained in sections 4 (1) 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and paragraph F-6 of the Commission's Order Defining the Functions and Establishing the Organizational Structure of the Office of the Secretary, dated February 14, 1952, as amended;

It is ordered, This 2d day of January 1953, that, effective immediately, §§ 7.306 (a) (2) 8.355 (a) (2) and 8.359 (b) of the Commission's rules and regulations are revised as set forth below:

1. Section 7.306 (a) (2) is amended by making the frequency "8450" listed therein read "8540"

2. Section 8.355 (a) (2) is amended by making the frequency "8220 kc" listed therein read "8820 kc"

3. Section 8.359 (b) is amended by making the reference therein to the frequency "156.2 Mc" read "156.3 Mc"

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, 50 Stat. 191, sec. 5, 66 Stat. 713; 47 U. S. C. 155, 303)

Released: January 2, 1953.

FEDERAL COMMUNICATIONS COMMISSION.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

I 25 CFR Part 21 I

GENERAL CREDIT TO INDIANS

INTEREST

Notice is hereby given of intention to amend § 21.6 of the regulations in Title 25, approved by the Secretary of the Interior November 17, 1950, to read as hereinafter indicated:

§ 21.6 *Interest*. On loans by the United States to corporations, unincorporated tribes and bands, and credit associations, such borrowers shall pay interest at the rate specified in the loan agreement, but such rate shall not be less than two percent nor more than five percent per annum. On loans by the United States to individuals for other than educational purposes, and to cooperative associations, other than credit associations,

such borrowers shall pay interest at the rate specified in the loan agreement, but such rate shall not be less than four percent nor more than six percent per annum. On loans by Indian organizations, borrowers shall pay interest at the rates specified in their loan agreements with such organizations, but the rates shall not be less than those charged the organizations by the United States. On all of the foregoing loans interest shall be calculated on the basis of 360 days per annum.

Nothing contained in this section shall be deemed to affect the rate of interest in loan agreements in effect on the date of promulgation of this section.

Interested persons are hereby given opportunity to participate in preparing the proposed amendments by submitting their views and data or arguments in writing to Dillon S. Myer, Commissioner of Indian Affairs, Washington 25, D. C., within 30 days from the date of the pub-

lication of this notice of intention in the daily issue of the FEDERAL REGISTER.

Dated: January 7, 1953.

OSCAR L. CHAPMAN,
Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

I 7 CFR Part 927 I

[Docket No. AO-A-24]

HANDLING OF MILK IN THE NEW YORK METROPOLITAN MILK MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of

1937, as amended (7 U. S. C. 601 et seq.) and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900) notice is hereby given of a public hearing to be held at the Mark Twain Hotel in Elmira, New York on March 10, 1953 beginning at 10:00 a. m., e. s. t., for the purpose of receiving evidence with respect to the proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area (hereinafter referred to as "Order No. 27"). These proposed amendments have not received the approval of the Secretary of Agriculture.

The proposed amendments herein set forth are designed to provide opportunity to consider the amendment of Order No. 27 as a means of solving some of the problems shown to exist on the record of the hearing held during the period June 2-July 30, 1952, pursuant to notice issued May 6, 1952 (17 F. R. 4257 and 4465) for consideration of a proposed new marketing order to regulate the handling of milk in an expanded marketing area proposed to include certain urban territory in Northern New Jersey and New York in addition to the marketing area as presently defined in Order No. 27. The issues involved in that hearing are still pending and under consideration. The issuance of this notice initiates an entirely new and separate proceeding and is not to be construed as a decision on the issues involved in the earlier hearing, and no such decision has otherwise been issued. The information contained in the record of that hearing, however, appears to indicate the existence of disorderly marketing conditions to a degree justifying action for their correction irrespective of conclusions subsequently reached concerning the need for expansion of the marketing area.

Notice is also hereby given to interested parties of an invitation to submit additional proposals to amend Order No. 27, other than proposals concerning the pricing of Class I-A milk. Such proposals should be mailed in quadruplicate by not later than February 2, 1953, to the Market Administrator, 205 East 42d Street, New York 17, New York. If it is determined after the submission of such additional proposals that they are proposals on which a hearing should be held, additional notice to that effect will be given.

Following are proposed amendments listed for hearing:

1. Add a new definition as follows:

§ 927.12 *Nearby territory.* "Nearby territory" means the marketing area, Accord, Ellenville, Gardiner, Kyserike, New Paltz, Phinney's Crossing, Wallkill, and West Cossackie, New York, and the following counties:

Counties

New Jersey: Burlington, Essex, Hunterdon, Morris, Passaic, Somerset, Sussex, Union, Warren.

New York: Columbia, Dutchess, Orange, Putnam, Rockland.

Connecticut: Litchfield.

Massachusetts: Berkshire.

2. Amend those provisions (§§ 927.20 through 927.27) concerning the designation, suspension and cancellation of pool plants, and specifically as follows:

a. Delete §§ 927.20, 927.21 and 927.22.

b. Renumber § 927.27 as § 927.20 and change the section heading to read as follows:

§ 927.20 *Shipping pool plants.*

c. Add a new § 927.21 as follows:

§ 927.21 *Reserve pool plants.* (a) Any plant shall be designated a pool plant upon determination by the Secretary that the provisions of paragraphs (b) through (e) of this section are met. Such designation shall be effective as of August 1 following the date of application pursuant to paragraph (b) of this section and continue until cancellation pursuant to § 927.23: *Provided*, That any plant which on the effective date of this provision meets the provisions set forth in paragraphs (b) through (e) of this section automatically shall be designated a pool plant on such date. In the event that no designation is made by the Secretary prior to August 1, the effective date of the designation, upon written request of the applicant or applicants prior to the issuance of a determination, shall be deferred until the first of the month following the date of such determination. If the effective date of designation is not so deferred, or if the application is not withdrawn, the plant shall be treated as a pool plant as of August 1. *Provided*, That all payments into or out of the producer-settlement fund (except such payments which are made on the basis of operations during a month in which a plant meets the requirements of § 927.20) shall be held in reserve by the market administrator until a determination is made.

(b) An application by the operator of the plant for such determination has been addressed to the Secretary and filed at the office of the market administrator during the period April 1 to June 30, inclusive, of any year: *Provided*, That if 50 percent or more of the dairy farmers delivering milk at such plant deliver such milk for the account of a cooperative association which does not operate the plant but for which milk such association receives payment, an application must be filed by such cooperative association as well as by the person operating the plant: *Provided further* That any plant for which a designation, pursuant to §§ 927.20, 927.22 or 927.25 in effect immediately prior to the effective date of this paragraph, was in effect immediately prior to the effective date of this paragraph shall be considered to have met the requirements of this paragraph. Prior to the issuance of a determination of the Secretary, an application may be withdrawn by written request of the applicant or applicants.

(c) The plant is located in the following territory: The state of New York, outside of the nearby territory and outside the counties of Niagara, Orleans, Monroe, Erie and Genesee; the county of Chittenden, Rutland or Bennington in the state of Vermont; or in the county of Bradford, Centre, Clinton, Juniata, Lycoming, McKean, Mifflin, Perry, Potter, Snyder, Sullivan, Susquehanna, Tioga,

Union, Warren, Wayne or Wyoming in the state of Pennsylvania.

(d) The plant shipped sufficient Class I-A milk to have qualified as a shipping pool plant pursuant to § 927.20 for each of the months in the 30-month period prior to the date of application, except that a plant need not have been a pool plant in the months of April, May or June falling within that period: *Provided*, That any plant for which a designation, pursuant to §§ 927.20, 927.22 or 927.25 in effect immediately prior to the effective date of this paragraph, was in effect immediately prior to the effective date of this paragraph shall be considered to have met the requirements of this paragraph.

(e) The operating requirements of § 927.22 are being met: *Provided*, That any plant for which a designation, pursuant to §§ 927.20, 927.22 or 927.25 in effect immediately prior to the effective date of this paragraph, was in effect immediately prior to the effective date of this paragraph shall be considered to have met the requirements of this paragraph.

d. Renumber § 927.23 as § 927.22 and change the section heading and the first sentence as follows:

§ 927.22 *Operating requirements.* In order to qualify and to remain qualified as a pool plant pursuant to § 927.21, the person operating the plant shall meet each of the following requirements:

e. Renumber § 927.24 as § 927.23 and amend paragraph (g) (2) thereof to read as follows:

(2) There has been issued by the market administrator, following such meeting, and mailed to all handlers operating pool plants designated pursuant to § 927.21 the market administrator's determination of the desirable utilization of milk received from producers each month during all or part of the period set forth in subparagraph (1) of this paragraph. Such determination shall include a schedule setting forth, by months, the desired minimum percentage of milk received from producers to be utilized in specified classes. Such specified classes shall include Class I-A, and may include all or a part of Class I-B, Class I-C, and Class II.

f. Renumber § 927.25 and § 927.26 to §§ 927.25 and 927.24 respectively and amend § 927.24 to read as follows:

§ 927.24 *Transfer of designation.* The designation pursuant to § 927.21 may be transferred at any time from one plant operated by a handler to another plant operated by the same handler, upon application by the handler to the Secretary showing that the new plant is a replacement for the designated plant, that it is located in the territory specified in § 927.21 (c), and that substantially all the dairy farmers delivering milk to the new plant previously delivered milk to the designated plant.

3. Amend § 927.31 by changing the "period" at the end of the paragraph to a "comma" and adding the following: "and in the absence of such proof the milk shall be presumed to be from pro-

PROPOSED RULE MAKING

ducer sources and not to have been paid for."

4. Amend § 927.37 (b) to read as follows:

(b) Class I-B milk shall be all milk except as provided in subparagraphs (3) and (5) of paragraph (e) of this section, the butterfat from which leaves the plant in the form of milk, concentrated fluid milk, fluid milk products, or as cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and which is delivered to a plant or a purchaser in an area outside of the state of New York but which at no time (1) is received, other than directly from producers, at a plant in the marketing area, or (2) otherwise enters the marketing area except as an incident to its transportation and delivery to a point outside of the marketing area. *Provided*, That use aboard a ship or other carrier shall not constitute such delivery. Such classification shall be applicable notwithstanding the fact that such milk may have been delivered to one or more intermediate purchasers or non-pool plants in the state of New York outside of the marketing area.

5. Amend § 927.37 (c) to read as follows:

(c) Class I-C milk shall be all milk, except as provided in paragraph (b) and in subparagraphs (3) and (5) of paragraph (e) of this section, the butterfat from which leaves the plant in the form of milk, concentrated fluid milk, fluid milk products, or as cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and which is delivered to a plant or a purchaser in the state of New York, but which at no time (1) is received other than directly from producers, at a plant in the marketing area, or (2) otherwise enters the marketing area except as an incident to its transportation and delivery to a point in the state of New York outside of the marketing area. *Provided*, That use aboard a ship or other carrier shall not constitute such delivery.

6. Amend § 927.40 (c) to read as follows:

(c) For Class I-B milk the price shall be the Class I-A price: *Provided*, That during the months of September through December, the price shall be the Class I-A price plus 50 cents per hundredweight.

7. Amend § 927.40 (d) to read as follows:

(d) For Class I-C milk the price during the months of September through December shall be the Class I-A price, and for other months shall be the uniform price plus 50 cents per hundredweight.

8. Amend § 927.42 to read as follows:

§ 927.42 *Transportation differentials*. The market administrator shall determine and publicly announce the freight zone for each pool plant and shall also determine the freight zone for each plant at which milk or milk products subject to the provisions of § 927.78 is received from dairy farmers. Such freight zones shall

be based on the shortest highway mileage from the plant to Columbus Circle, New York City, as computed (without using supplements issued thereto) from Mileage Guide No. 5 issued on July 20, 1949, effective August 21, 1949, by the Household Goods Carriers' Bureau, Agent, Washington, D. C. The freight zone for plants located in the marketing area shall be the 1-10 mile zone. Class prices as set forth in § 927.40 and the fluid skim differential as set forth in § 927.44 shall be plus or minus the amounts set forth in the following schedule:

[Cents per hundredweight]		
A	B	C
Freight zone (miles)	Classes I-A, I-B, and I-C and skim milk subject to the fluid skim differentials	Classes II and III
1-10	+26	+8
11-20	+25	+8
21-25	+23.5	+8
26-30	+23.5	+7
31-40	+22	+7
41-50	+21	+7
51-60	+19.5	+6
61-70	+18	+6
71-75	+17	+6
76-80	+17	+5
81-90 1/2	+15.5	+5
91-100	+14	+5
101-110	+13	+4
111-120	+11.5	+4
121-125	+10.5	+4
126-130	+10.5	+3
131-140	+9	+3
141-150	+8	+3
151-160	+6.5	+2
161-170	+5	+2
171-175	+4	+2
176-180	+4	+1
181 1/2-190	+2.5	+1
191-200	+1	+1
201-210	0	0
211-220	-1	0
221-225	-2.5	0
226-230	-2.5	-1
231-240	-4	-1
241-250	-5	-1
251-260	-6.5	-2
261-270	-8	-2
271-275	-9	-2
276-280	-9	-3
281-290	-10.5	-3
291-300	-11.5	-3
301-325	-13	-4
326-350	-14	-5
351-375	-15	-6
376-400	-16	-7
401-425	-17	-8
426-450	-18	-9
451-475	-19	-10
476 and over	-20	-11

9. Amend § 927.44 to read as follows:

§ 927.44 *Fluid skim differential*. For skim milk derived from Class II or Class III milk, which skim milk is not established to have left or to be on hand at the plant where classification is determined in some form other than milk, fluid skim milk, or cultured milk drinks, the handler shall pay a fluid skim differential per hundredweight computed as follows: deduct the price for Class II milk from the price for Class I-A milk, and divide by .9125.

10. Renumber §§ 927.45 and 927.46 as 927.46 and 927.47 respectively and insert a new § 927.45 as follows:

§ 927.45 *Nearby territory differential*. For all milk received directly from producers' farms at plants located in the nearby territory, each handler shall pay, in addition to the class prices, 5 cents per hundredweight.

11. Amend § 927.60 (b) to read as follows:

(b) Subject to adjustment for applicable differentials pursuant to §§ 927.41 and 927.42, multiply the milk in each class by the class price, multiply skim milk subject to the fluid differential by the fluid skim differential per hundredweight and add-together the resulting values: *Provided*, That if the price for milk is set at a differential over the uniform price, such differential shall be used in place of the class price.

12. Amend § 927.60 (d) to read as follows:

(d) Deduct the differential required to be paid to producers pursuant to § 927.66.

13. Amend § 927.60 (e) to read as follows:

(e) Deduct the total amount of the butter-cheese adjustment computed pursuant to § 927.43. The result shall be known as the handler's net pool obligation for such plant.

14. Delete paragraph (f) of § 927.60 and change paragraph (g) to (f)

15. Amend § 927.61 (f) as follows:

(f) Subtract the milk priced at a differential over the uniform price from the total milk received from producers by all handlers whose reports are included in this computation; and

16. Amend § 927.66 to read as follows:

§ 927.66 *Transportation and location differentials*. The uniform price at any plant shall be adjusted by the amounts set forth in Column (d) of the following schedule for the zone of the plant as determined pursuant to § 927.42.

[Cents per hundredweight]			
A	B	C	D
Freight zone (miles)	Transportation differentials	Location differentials	Uniform price differentials
1-10	+26	+20	+40
11-20	+25	+19	+44
21-25	+23.5	+18.5	+42
26-30	+23.5	+18	+41.5
31-40	+22	+17	+39
41-50	+21	+16	+37
51-60	+19.5	+15	+34.5
61-70	+18	+14	+32
71-75	+17	+13.5	+30.5
76-80	+17	+13	+30
81-90	+15.5	+12	+27.5
91-100	+14	+11	+25
101-110	+13	+10	+23
111-120	+11.5	+9	+20.5
121-125	+10.5	+8.5	+19
126-130	+10.5	+8	+18.5
131-140	+9	+7	+16
141-150	+8	+6	+14
151-160	+6.5	+5	+11.5
161-170	+5	+4	+9
171-175	+4	+4	+8
176-180	+4	+3	+7
181-190	+2.5	+2	+4.5
191-200	+1	+1	+2
201-210	0	0	0
211-220	-1	-1	-2
221-225	-2.5	-1.5	-4
226-230	-2.5	-2	-4.5
231-240	-4	-3	-7
241-250	-5	-4	-9
251-260	-6.5	-6	-11.5
261-270	-8	-8	-14
271-275	-9	-8.5	-16.5
276-280	-9	-7	-16
281-290	-10.5	-8	-18.5
291-300	-11.5	-9	-20.5
301-325	-13	-10	-23
326-350	-14	-13	-27
351-375	-15	-15.5	-28.5
376-400	-16	-18	-34
401-425	-17	-20.5	-37.5
426-450	-18	-23	-41
451-475	-19	-25.5	-44.5
476 and over	-20	-28	-48

17. Add a new § 927.68 as follows:

§ 927.68 *Payment of nearby territory differential.* The uniform price to producers delivering to plants in the nearby territory shall be plus 5 cents.

18. Amend paragraph (a) of § 927.74 as follows:

(a) Add to each handler's net pool obligation the value at the uniform price of his milk priced at a differential over the uniform price.

19. Revise the provisions of § 927.78 as may be necessary to provide for payments by handlers on milk from non-producer sources and from unrevealed sources to avoid the disparity, which in the absence of such payments, would exist between the prices paid to farmers for such milk and the minimum prices established for milk received by handlers from producers, and specifically in the following respects:

a. Make such payments applicable to milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream and fluid skim milk which milk or milk product is derived from milk the source of which either is not established or is established to be from other than producers, and is classified in Class I-A or Class II or the skim milk is subject to the fluid skim differential.

b. Where the milk or milk product is derived from milk received from dairy farmers at a plant in the 451-475 mile zone or some other zone nearer the marketing area and is not regulated by another order of the Secretary, provide for payment based on the difference between the value of the milk at the Class I-A or Class II price, as the case may be, at the plant where received from dairy farmers and the Class III price at such plant. For skim milk, provide for payment of the fluid skim differential adjusted for location of the plant.

c. Where the milk or milk product is derived from milk received from dairy farmers at a plant farther from the marketing area than the 451-475 mile zone and is not regulated by another order of the Secretary, provide for payment based on the difference between the value of the milk at the Class I or Class II price, as the case may be, at the plant where received from dairy farmers and the Midwestern condensary price. For skim milk, provide for payment of the fluid skim differential adjusted for location of the plant.

d. Where the milk is classified and paid for under another order of the Secretary, provide for payment of the amount by which the value of the milk at the Class I or Class II price exceeds its value at the class prices under the other order, except that if farmers under the other order are paid in accordance with a handler pool and the other order permits deduction from the handler's pool obligation of the payments required hereunder, the payment shall be at the same rates as proposed (in b and c) for milk from other nonpool sources.

e. Where the source of the milk is not established it shall be presumed to be from unrevealed producer sources but not to have been paid for and the pay-

ments required shall be at the Class (I-A or II) price adjusted for the location of the plant where the milk or milk product is first found. For skim milk, provide for payment at the fluid skim differential plus 91.25 percent of the amount computed pursuant to § 927.40 (e) (2) with the sum adjusted for the zone of the plant where the skim milk is first found.

f. Provide that the obligation to make the payments required under this section shall be upon the handler who operates the plant at which the milk involved is received from dairy farmers, except that where the source of the milk is not revealed the responsibility for payment shall be on the operator of the plant where the milk or milk product is first found.

20. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendment that may result from this hearing.

Copies of this notice of hearing, the said order, as amended, and the tentative marketing agreement may be procured from the Market Administrator, 205 East 42nd Street, New York 17, New York, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may there be inspected.

Dated: January 8, 1953.

[SEAL] ROY W. LEMNARTSON,
Assistant Administrator

[F. R. Doc. 53-287; Filed, Jan. 12, 1953; 8:51 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Part 271 I]

[Economic Regs., Draft Release No. 53-A]

FINANCIAL RESPONSIBILITY REQUIREMENTS FOR AIR CARRIERS AND FOREIGN AIR CARRIERS

SUPPLEMENTAL NOTICE OF PROPOSED RULE-MAKING IN RESPONSE TO PETITION

JANUARY 8, 1953.

In the notice of proposed rule-making on this matter published in the FEDERAL REGISTER on December 23, 1952 (17 F. R. 11700), it was stated that the Board would consider all relevant matter in communications received on or before January 16, 1953. The Board has been requested by several interested parties to extend the date by which comments must be filed with the Board from January 16, 1953 to January 23, 1953. Because of the fact that the Draft Release was circulated immediately prior to the holiday season, and in many instances mail delivery may have been retarded, the Board believes that this request should be granted, particularly in view of the fact that such an extension will still leave all comments available for inspection prior to the oral argument which is set down for January 29, 1953.

Accordingly, the third sentence of the second paragraph of the aforementioned notice is amended to read as follows: "All communications received by January 23, 1953 will be considered by the

Board before taking further action on the proposed rule."

(Sec. 205 (a), 62 Stat. 834; 49 U. S. C. 425 (a). Interpret or apply sec. 401, 402, 416, 62 Stat. 837, 891, 1004; 49 U. S. C. 481, 482, 496)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[47-CFR Part 2 I]

[Docket No. 10367]

FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

TABLE OF FREQUENCY ALLOCATIONS

In the matter of deletion of footnote 207 to § 2.104 (a) of the Commission's rules and regulations, and amendment of footnotes US 11 and US 18 to § 2.104 (a) of the Commission's rules.

1. Notice of proposed rule making is given in the above entitled matter.

2. It is proposed to delete footnote 207 to § 2.104 (a) of the Commission's rules, which provides that "in Region 2, distance measuring equipment in the aeronautical radionavigation service may be operated in the band 220-231 Mc until the 1st of January 1952, in accordance with appropriate bilateral or multilateral arrangements," as no longer applicable; to amend footnote U. S. 11 to § 2.104 (a) of the Commission's rules which now provides that the aeronautical radionavigation service will not be permitted to use the band 420-460 Mc after February 15, 1953, to permit the use of the band until February 15, 1958, since equipment is not now available for operation by that service in other bands; and to amend footnote U. S. 18 to § 2.104 (a) of the rules to limit authorized power of 50 watts for amateur stations operating in the band 420-450 Mc until February 15, 1958.

3. The amended footnotes would read as follows:

US 11 The aeronautical radionavigation service will not be permitted to use the band 420-460 Mc after February 15, 1958.

US 18 Amateur power to be limited to 50 watts until February 15, 1958 (in the band 420-450 Mc).

4. Authority for the proposed amendments is contained in sections 303 (c) and (r) of the Communications Act of 1934, as amended.

5. Any interested person who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth, may file with the Commission on or before January 19, 1953, a written statement or brief setting forth his comments. At the same time, persons favoring the amendment as proposed may file statements in support thereof. Comments in reply to the original statements or briefs may be filed within 15 days from the last day for filing said original statements or briefs.

PROPOSED RULE MAKING

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and fourteen copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: January 2, 1953.

Released: January 5, 1953.

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] T. J. SLOWIE,
Secretary.

[47 CFR Part 3]

[Docket No. 10364]

RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. In accordance with a petition filed by the Suffolk Broadcasting Corporation, Patchogue, New York, on December 10, 1952, and now made part of this docket, and it appearing that the petition complies with § 3.609 of the Commission's rules in that it proposes an assignment of a television channel in a community which is not listed in the table and is not within 15 miles of a city so listed nor would the proposed assignment require any other changes in the table, it is proposed to amend § 3.606, Table of Assignments, rules governing Television Broadcast Stations, as follows:

Add to Table of Assignments under the State of New York:

Channel
No.

Patchogue..... 75

3. The purpose of the proposed amendment is to provide a television channel assignment in the community named in paragraph 2 above not otherwise available under the rules.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c) (d) (f) and (r) and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before January 26, 1953, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and

regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: December 31, 1952.

Released: January 5, 1953.

[Docket No. 10345]

TELEVISION AUXILIARY BROADCAST
STATIONSNOTICE OF EXTENSION OF TIME FOR FILING
COMMENTS

In the matter of amendment of Part 4 of the Commission's rules and regulations governing television Auxiliary Broadcast Stations.

1. On November 17, 1952, the Commission issued a notice of proposed rule making (FCC 52-1461) in the above entitled matter which specified that comments were to be filed on or before December 19, 1952. The National Association of Radio and Television Broadcasters has submitted a request for an extension of 20 days within which to file comments in this matter. NARTB states that it has sought to obtain from various equipment manufacturers and television broadcast licensees certain information and views concerning the proposed amendments and that such data was in the process of being collated and analyzed by the Association with a view towards its submission to its Engineering Advisory Committee. The NARTB states that it has not been possible for it to complete its comments in the above entitled matter within the time afforded by the Commission. The National Broadcasting Company, Inc. states that it has been unable to determine at this time whether the need for additional channels for television auxiliary broadcasting service can best be made in a manner proposed in the Commission's notice or by the allocation of additional frequencies or by a combination of both.

2. We are of the view that an additional period of 30 days is adequate to afford interested parties an opportunity to submit comments in the above entitled matter. Notice is hereby given that the time for filing comments in the above entitled matter is extended to January 19, 1953. Replies to such comments may be filed on or before January 29, 1953.

Adopted: December 31, 1952.

Released: January 5, 1953.

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] T. J. SLOWIE,
Secretary.

[47 CFR Part 10]

[Docket No. 10362]

EMERGENCY RADIO SERVICES

HIGHWAY MAINTENANCE RADIO SERVICE

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of §§ 10.404 and 10.405 of Part 10—Public Safety Radio Services.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend § 10.404 of Part 10, rules governing Public Safety Radio Services by the addition of a new paragraph, designated as paragraph (c), to require each operator of a station in the Highway Maintenance Radio Service which employs a frequency shared with the Special Emergency Radio Service (and limited by the provisions of Note 6 of § 10.455 of these rules) to conduct listening tests on that frequency prior to transmitting, and to prohibit such operator from transmitting until he can be reasonably certain that harmful interference would not be caused to any authorized communication in progress on such frequency. It is further proposed to amend § 10.405, which restricts mobile Highway Maintenance radio systems (except State systems) to the use of only one frequency, to permit use of more than one frequency by all such systems.

3. The proposed amendments as set forth below are issued under the authority of sections 4 (i) and 303 (c) (f), and (r) of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth, may file with the Commission on or before February 28, 1953, a written statement or brief setting forth his comments. At the same time any person who favors the amendments as set forth may file a statement in support thereof. Comments or briefs in reply to the original comments or briefs may be filed within 15 days from the last day for filing the said original comments or briefs. The Commission will consider all such comments, briefs, and statements before taking final action. If any comments are received which appear to warrant the Commission in holding an oral argument before final action is taken, notice of the time and place of such oral argument will be given such interested parties.

5. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: December 31, 1952.

Released: December 31, 1952.

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] T. J. SLOWIE,
Secretary.

Amend Part 10 as follows:

1. In § 10.404 add new paragraph (c) to read as follows:

(c) Each operator of a station in the Highway Maintenance Radio Service

when employing a frequency shared with the Special Emergency Radio Service and designated by limitation note 6 in §10.455 (e) of these rules shall listen on the licensed frequency of the station prior to transmitting and shall not transmit until it has been reasonably determined that harmful interference will not be caused to any authorized communication in progress on the frequency.

2. Change § 10.405 (c) to read as follows:

(c) Normally, not more than two frequencies will be assigned to a licensee for mobile service operations. Additional frequencies may be assigned provided the request therefor is adequately supported by a satisfactory showing of need.

NOTICES

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 19110]

DR. HEINRICH FEIFEL

In re: Claim of Dr. Heinrich Feifel, F-28-32011.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40) Public Law 131, 82d Congress, 65 Stat. 451, Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp., 3 CFR 1945 Supp.) Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.) and pursuant to law, after investigation, it is hereby found:

1. That Dr. Heinrich Feifel, whose last known address is Spaichingen, Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1,

1947, was a national of a designated enemy country (Germany),

2. That the property described as follows: That certain claim against the State of Illinois and/or the Auditor of Public Accounts, Banking Division, State of Illinois, 186 West Randolph Street, Chicago 1, Illinois, arising out of the claim of Dr. Heinrich Feifel, heir of the Estate of Guston H. Erb, deceased, Spaichingen, Germany, in the Union State Bank of South Chicago, Illinois, including particularly but not limited to dividend payments due on said claim, and any and all rights to file, enforce and collect same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control, by, Dr. Heinrich Feifel, the aforesaid national of a designated enemy country (Germany), and it is hereby determined:

3. That the national interest of the United States requires that the person identified in subparagraph 1 hereof, be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on January 7, 1953.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS, Assistant Attorney General, Director, Office of Alien Property.

Office of the Secretary

DESIGNATION OF DISASTER AREAS

Pursuant to the authority contained in section 2, of the act of April 16, 1949 (63 Stat. 44; 12 U. S. C. 1148a-2) designations of counties having a need for agricultural credit and amendments to designations previously made are as follows:

ALABAMA

After December 31, 1953, disaster loans will not be made except to borrowers who previously received such assistance in the following counties which were designated as disaster areas on March 25, 1952 (17 F. R. 3561)

Chilton.	Pickens.
Madison.	Tucaleeosa.
Morgan.	Winston.

The following counties were designated, on July 31, 1952, as disaster areas due to severe drought conditions. After December 31, 1953, disaster loans will not be made except to borrowers who previously received such assistance.

Autauga.	Escambia.
Baldwin.	Etowah.
Barbour.	Fayette.
Bibb.	Franklin.
Blount.	Geneva.
Bullock.	Greene.
Butler.	Hale.
Calhoun.	Henry.
Chambers.	Houston.
Cherokee.	Jackson.
Choctaw.	Jefferson.
Clarke.	Lamar.
Clay.	Lauderdale.
Claburne.	Lawrence.
Coffee.	Lee.
Calbert.	Limestone.
Concuh.	Lowndes.
Cocca.	Macon.
Covington.	Marengo.
Crenshaw.	Marion.
Cullman.	Marshall.
Dale.	Mobile.
Dallas.	Monroe.
De Kalb.	Montgomery.
Elmore.	Perry.

Pike.
Randolph.
Russell.
St. Clair.
Shelby.
Sumter.

Talladega.
Tallapoosa.
Walker.
Washington.
Wilcox.

ARKANSAS

Benton County was designated, on July 21, 1952, as a disaster area due to severe drought. After December 31, 1953, disaster loans will not be made except to borrowers who previously received such assistance.

The following counties were designated, on July 28, 1952, as disaster areas due to drought. After December 31, 1953, disaster loans will not be made except to borrowers who previously received such assistance.

Baxter.	Marion.
Carroll.	Nevada.
Cleburne.	Perry.
Conway.	Scott.
Crawford.	Searcy.
Fulton.	Union.
Hot Spring.	Van Buren.
Madison.	

The period for making initial disaster loans in Faulkner, Independence, and Saline Counties, which were designated as disaster areas on March 25, 1952 (17 F R. 3561) is extended to December 31, 1953.

The following counties were designated, on August 1, 1952, as disaster areas due to drought. After December 31, 1953, disaster loans will not be made except to borrowers who previously received such assistance.

Boone.	Polk.
Clay.	Sebastian.
Izard.	Yell.
Ouachita.	

The following counties were designated, on August 6, 1952, as disaster areas due to drought. After December 31, 1953, disaster loans will not be made except to borrowers who previously received such assistance.

Arkansas.	Lawrence.
Ashley.	Lee.
Bradley.	Lincoln.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10272, 10273]

BRUSH-MOORE NEWSPAPERS, INC., AND STARK BROADCASTING CORP.

ORDER CONTINUING HEARING

In re applications of The Brush-Moore Newspapers, Inc., Canton, Ohio, Docket No. 10272, File No. BPCT-264; Stark Broadcasting Corporation, Canton, Ohio, Docket No. 10273, File No. BPCT-949; for construction permits for new television stations.

The Commission, having under consideration a joint petition filed December 31, 1952, by The Brush-Moore Newspapers, Inc., and Stark Broadcasting Corporation, both of Canton, Ohio, and a supplement to said joint petition filed January 5, 1953, by Stark Broadcasting Corporation, for a continuance to February 18, 1953, of the hearing on the above-entitled applications now scheduled for January 12, 1953; and

It appearing that the applicants in this proceeding have on file with the Commission a joint petition requesting the assignment of an additional UHF channel to Canton, Ohio, which petition has not yet been acted on by the Commission; that a favorable ruling upon said petition would obviate the necessity for a comparative hearing in this proceeding; and

It appearing further that a continuance of the hearing in this proceeding is requested in any event because both applicants are unable to obtain hotel accommodations in Washington for the week following January 12, 1953, and if said hearing is not continued it would have to be adjourned until after Inaugural Week; that this would require applicants and their witnesses to make two trips to Washington and thus they would be seriously inconvenienced; and

It further appearing from the Stark supplement to the joint petition that J. Irvin Schultz, vice-president, a director and 50 percent stockholder of the Stark Broadcasting Corporation, is ill and, according to the statement of his physician which is submitted as a part of the supplemental petition, it will be six to eight weeks before Mr. Schultz will be able to travel; that the testimony of this major stockholder, officer and director is essential; and that no party to this proceeding or the public interest would be adversely affected by a grant of said joint petition and a continuance as requested; that there are no other parties to this proceeding save these applicants and the Broadcast Bureau has agreed to waive the provisions of § 1.745 of the Commission's rules so that said petition may be considered forthwith;

Therefore it is ordered, This 6th day of January, 1953, that the joint petition of The Brush-Moore Newspapers, Inc.,

and Stark Broadcasting Corporation is granted; and the hearing on the above-entitled applications now scheduled for January 12, 1953, is continued to 10 o'clock a. m., Wednesday February 18, 1953, in Washington, D. C.

[Docket No. 10363]

MID-SOUTH BROADCASTING CO. (KPLN)

ORDER DESIGNATING APPLICATION FOR HEARING

In re application of Leo Howard et/as Mid-South Broadcasting Co. (KPLN) Camden, Arkansas, for license to cover construction permit; Docket No. 10363, File No. BL-4782.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of December 1952:

The Commission having under consideration the above-entitled application for license to cover construction permit (BP-7888 as modified) authorizing a new broadcasting station at Camden, Arkansas (KPLN), and

It appearing that the Commission on November 5, 1952, forwarded a notice to permittee apprising him, pursuant to section 309 (b) of the Communications Act, as amended by section 7 of the Communications Act Amendments, 1952, of the facts then in its possession relative to the question of misrepresentation to and concealment from the Commission of material facts concerning the construction, ownership, and control of Station KPLN, and a possible transfer of control of permittee; and,

It further appearing that permittee filed a reply to the aforementioned notice on December 4, 1952; and

It further appearing on the basis of the facts contained in the aforementioned correspondence and information obtained by the Commission in its independent investigation of the matter, that the Commission cannot conclude at this time, as it is required to do in accordance with section 319 (c) of the Communications Act, as amended, that grant of the above-entitled license application would serve the public interest, convenience, and necessity.

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled license application is designated for hearing, said hearing to be held at Washington, D. C., on a date to be determined, upon the following issues:

1. To determine whether the construction permit granted to Leo Howard for Station KPLN, or the rights and responsibilities incident thereto, have been transferred, assigned, or disposed of, directly or indirectly, without the consent of the Commission, in contravention of the Communications Act of 1934, as amended, and, more particularly, section 310 (b) thereof, and to secure infor-

mation concerning, among other things, the following matters:

(a) The method or methods of financing construction and operation of Station KPLN from the date of grant of the construction permit (BP-7888) to date, and the sources of such financing, and whether the aforesaid method or methods so employed deviated from the representations made with respect thereto in the application for the construction permit;

(b) To obtain information as to all contracts, agreements, arrangements or understandings, written or oral, past or present, between Leo E. Howard and Randolph James relating to the construction of KPLN, and its future ownership, operation, management and control;

(c) To obtain full information as to all contracts, agreements, arrangements, or understandings, written or oral, past or present, between Leo Howard, on the one hand, and George L. Byars, C. T. Mullins, and David Crockett, on the other hand, collectively or individually, relating to the construction, management, operation, and control of Station KPLN;

(d) To obtain full information as to the extent and methods of participation, if any, by Randolph James, George L. Byars, C. T. Mullins, and/or David Crockett in the financing and construction of Station KPLN from the date of grant of the construction permit (BP-7888) to date, and to determine whether Station KPLN has been constructed, controlled or managed by individuals unknown to the Commission, in violation of sections 301 and 310 (b) of the Communications Act of 1934, as amended;

(e) To obtain full information relating to the ownership of the physical facilities of Station KPLN;

2. To determine whether the execution of any of the contracts, agreements, arrangements, or understandings, if any, referred to in Issue No. 1, the terms thereof, or any action performed pursuant thereto, are in violation of section 310 (b) referred to above, or in violation of the Commission's rules and regulations, with particular reference to §§ 1.321, 1.342 and 1.343 of said rules and regulations.

3. To determine the authority and control exercised by permittee in the construction, ownership, and management of Station KPLN.

4. To determine whether permittee has concealed information from the Commission regarding the construction, ownership, management and control of Station KPLN, or has misrepresented the facts concerning such construction, ownership, management and control in applications, reports and letters which he, from time to time, filed with the Commission, with particular reference to the following:

(a) Whether permittee concealed or misrepresented the facts concerning his financial qualifications in the application for construction permit (BP-7888) and failed to disclose the agreement between himself and Randolph James concerning the method of financing construction of Station KPLN and James' interest therein.

(b) Whether permittee misrepresented that there were no changes in financing, ownership, and control of Station KPLN in his application (BMP-5872) specifying a transmitter site, when, in fact, permittee had executed a power-of-attorney to George L. Byars to construct Station KPLN.

(c) Whether permittee concealed or misrepresented facts relative to the financing, ownership, and control of Station KPLN in the above-entitled license application.

5. To determine whether, in the light of the evidence adduced under the foregoing issues, the Commission has authority under the provisions of section 319 (c) to grant the above-entitled application for license; and if so, whether the public interest, convenience and necessity would be served by grant of the application.

Released: January 6, 1953.

[Docket Nos. 10365, 10366]

WGAL, INC., AND PEOPLES
BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of WGAL, Inc. (WGAL-TV) Lancaster, Pennsylvania, for construction permit to change site, increase power and antenna height, make equipment changes, and for regular operation of Television Station WGAL-TV on Channel 8, Docket No. 10366, File No. BPCT-910; and Peoples Broadcasting Company, Lancaster, Pennsylvania, for construction permit for a new television station, Docket No. 10365, File No. BPCT-654.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of December 1952;

The Commission having under consideration the above-entitled application of WGAL, Inc. for a construction permit to change site, increase power and antenna height, make equipment changes, and for regular operation of Television Station WGAL-TV on Channel 8 in Lancaster, Pennsylvania, and the above-entitled application of Peoples Broadcasting Company for a construction permit for a new television station on Channel 8 in Lancaster, Pennsylvania, letters from the Commission dated September 16, 1952, to the above-named applicants advising them that their applications were mutually exclusive and were required to be designated for hearing in a consolidated proceeding; the replies of Peoples Broadcasting Company, both dated October 24, 1952, and the replies of WGAL, Inc., dated October 3, and November 17, 1952;

It appearing, that the Commission is unable to find in light of the aforesaid replies that the public interest, convenience or necessity would be served by

granting either of the above-entitled applications; and

It further appearing, that WGAL, Inc., is legally, financially and technically qualified to construct and operate the proposed station; and

It further appearing, that Peoples Broadcasting Company is technically qualified to construct and operate the proposed station, and is legally qualified to construct and operate the proposed station except as to matters referred to in issue 1 below.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m., February 2, 1953, at Washington, D. C., upon the following issues:

1. To determine whether Peoples Broadcasting Company is financially qualified to construct and operate the proposed station and whether misrepresentations were made to the Commission by Peoples Broadcasting Company with respect to its financial qualifications in its above-entitled application, in the light of the information contained in the application of Binghamton Broadcasters, Inc., for a permit to construct a television station in Binghamton, New York (BPCT-1100)

2. To determine whether the installation and operation of either of the stations proposed in the above-entitled applications would constitute a hazard to air navigation.

3. To determine on a comparative basis which if either of the above-entitled applications should be granted with particular reference to but not limited to the following:

(a) The background, experience and capabilities of WGAL, Inc., and Peoples Broadcasting Company to construct and operate the television broadcast station proposed by each applicant.

(b) The type and character of the program service proposed to be rendered by WGAL, Inc., and Peoples Broadcasting Company and whether such proposed service would meet the needs of the communities and areas within the Grade A and B field intensity contours.

(c) The management and operation of the stations proposed by WGAL, Inc., and Peoples Broadcasting Company.

(d) The extent of common ownership and interest of WGAL, Inc., in television Stations WDEL-TV Wilmington, Delaware, and WLEV-TV, Bethlehem, Pennsylvania.

(e) The extent of overlap that would result from the operation of WGAL-TV as proposed in its above-entitled application and the operation of WDEL-TV and WLEV-TV, as authorized.

[Docket No. 1158]

WILLMUT GAS & OIL CO. ET AL.

ORDER FIXING DATE FOR ORAL ARGUMENT

JANUARY 6, 1953.

In the matter of Willmut Gas & Oil Company, et al., v. United Gas Pipe Line Company; Docket No. G-1158.

On November 26, 1952, the Presiding Examiner filed his Decision in this proceeding, which Decision was served on all the parties on November 28, 1952.

Thereafter, on December 15, 1952, United Gas Pipe Line Company, respondent herein, filed its exceptions to said Decision pursuant to the provisions of § 1.31 of the Commission's rules of practice and procedure (18 CFR 1.31). Exceptions were also filed on December 22, 1952, by Counsel for the Staff of the Commission and on December 29, 1952, by Willmut Gas & Oil Company, complainant herein.

The Commission finds: It is appropriate for carrying out the provisions of the Natural Gas Act that oral argument be had before the Commission concerning the matters involved and the issues presented by said exceptions to the Presiding Examiner's Decision filed herein.

The Commission orders:

(A) Oral argument be had before the Commission on January 30, 1953, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by said exceptions to the Presiding Examiner's Decision.

(B) Those parties to this proceeding who intend to participate in the oral

argument shall notify the Secretary of the Commission on or before January 23, 1953, of such intention and of the time requested for presentation of their argument.

Date of issuance: January 7, 1953.

By the Commission.

[SEAL] J. H. GUTRIDE, Acting Secretary.

OFFICE OF DEFENSE MOBILIZATION

[CDHA 98]

FINDING AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER THE DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951

JANUARY 9, 1953.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations and the availability of housing and community facilities and services for such defense workers and military personnel in the area set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing

and Community Facilities and Services Act of 1951 (Pub. Law 139, 82d Cong., 1st Sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that said area is a critical defense housing area.

Trinidad, Colorado, Area. (The area recommended for certification consists of all of the following Election Precincts in Las Animas County: 1, 2, 3, 4, 5, 6, 7, 8, 9, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 24, 25, 29, 30, 32, 34, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48; 49, 51, 59, 64, 65 and 69; all in Colorado.)

HENRY H. FOWLER,

Director of Defense Mobilization.

SECURITIES AND EXCHANGE COMMISSION

[File No. 50-34, 70-2340-70-2243]

PHILADELPHIA CO. ET AL.

ORDER EXTENDING TIME FOR TERMINATION OF INTERLOCKING RELATIONSHIPS

JANUARY 7, 1953.

In the matter of Philadelphia Company, Equitable Gas Company, Pittsburgh and West Virginia Gas Company, Kentucky West Virginia Gas Company, File No. 70-2343; Philadelphia Company, File No. 70-2342; Philadelphia Company, File No. 50-34; Standard Gas and Electric Company, File No. 70-2341, Standard Gas and Electric Company, Philadelphia Company, File No. 70-2340.

Standard Gas and Electric Company ("Standard") and its subsidiary, Philadelphia Company ("Philadelphia") both registered holding companies and subsidiaries of Standard Power and Light Corporation, also a registered holding company, and certain of Philadelphia's former subsidiaries, Equitable Gas Company ("Equitable"), Pittsburgh and West Virginia Gas Company ("Pittsburgh") and Kentucky West Virginia Gas Company ("Kentucky"), having filed applications-declarations and amendments thereto pursuant to the Public Utility Holding Company Act of 1935 ("act") and the rules and regulations promulgated thereunder, proposing, among other things, the reorganization of the natural gas and oil properties in the Philadelphia system, the recapitalization and issuance of securities by Equitable, the amendment of Equitable's charter, and the sale by Philadelphia to the public of all the common stock of Equitable, as reorganized; and

The Commission, by order dated March 14, 1950, having granted and permitted to become effective said applications-declarations, as amended, subject, among other things, to the following condition:

1. That within six months (or such additional time as may be allowed for good cause shown) after consummation of the sale by Philadelphia of the Equitable common stock, Standard and Philadelphia shall, in an appropriate manner not in contravention of

the provisions of the Act or the Rules, Regulations or orders thereunder, terminate or cause to be terminated all interlocking relationships through any person or persons by way of contract, retainer or other arrangement with any person or persons, or through the holding of an officership or directorship by any person or persons, or by the joint operation of departments and activities, and the joint use of personnel, property or facilities as between Equitable, Pittsburgh, and Kentucky, on the one hand and other companies now or formerly in the Philadelphia system, on the other; and

The aforementioned sale by Philadelphia of the Equitable common stock having been consummated on March 31, 1950; Standard and Philadelphia, from time to time having heretofore requested the Commission to extend the time for compliance with the said condition and the Commission having granted such extensions, the last of which expired September 30, 1952; and

Standard and Philadelphia, by letter dated December 19, 1952, having stated that while substantial progress has been made in the program of segregating the operating organizations of Philadelphia's former gas company subsidiaries and the Philadelphia system, additional time is required to complete the program, and having requested the Commission to extend the time for compliance with the said condition; and

The Commission having considered such request and the reasons advanced in support thereof and deeming that the public interest and the interest of investors and consumers will not be affected adversely by granting such request:

It is ordered, That the time prescribed for compliance by Standard and Philadelphia with the above-recited condition be, and hereby is, extended to April 1, 1953.

By the Commission.

[SEAL] ORVAL L. DuBOIS,
Secretary.

[File No. 70-2066]

**NORTH AMERICAN CO. AND UNION ELECTRIC
CO. OF MISSOURI**

**ORDER EXTENDING TIME FOR DISPOSITION
OF INTEREST IN WATER PROPERTIES AND
BUSINESS**

JANUARY 7, 1953.

The North American Company ("North American") a registered holding company, and its public utility subsidiary, Union Electric Company of Missouri ("Union") also a registered holding company having filed a joint application-declaration and amendments thereto, pursuant to the Public Utility Holding Company Act of 1935 ("act") and the rules and regulations promulgated thereunder, with respect to the transfer by North American to Union of all of the outstanding common stock of Missouri Power & Light Company ("Missouri") then a public utility subsidiary of North American;

The Commission, by order dated December 28, 1950, having granted and per-

mitted to become effective said application-declaration, as amended, subject, among other things, to the following condition:

(1) That within six months after the receipt by Union of the Missouri common stock, or such further time as the Commission may grant upon good cause shown, Union shall cause the disposition of its interest in Missouri's water and ice properties and businesses and Missouri's electric properties located at Clinton, Missouri; and that North American shall cause Union to take such action;

The Commission having heretofore extended until June 30, 1952, the time for compliance with the aforesaid condition;

It appearing that Missouri has disposed of its ice properties located at Mexico, Missouri, and its electric properties located at Clinton, Missouri, and Union and Missouri, by letters dated June 27, 1952, and December 29, 1952, having stated that they have been unable in the exercise of due diligence to dispose of Missouri's water properties at Excelsior Springs, Missouri, and Mexico, Missouri, and having represented that diligent efforts are being made to dispose of such properties and in said letter dated December 29, 1952, having requested the Commission to extend for an additional period, not less than six months, the time in which to comply with the Commission's order of December 28, 1950; and

The Commission having considered such request and the reasons advanced in support thereof and deeming that the public interest and the interests of investors and consumers will not be affected adversely by granting such request:

It is ordered, That the time prescribed for compliance by Union and North American with the above-recited condition relating to the water properties and business of Missouri be, and hereby is, extended to June 30, 1953.

By the Commission.

**INTERSTATE COMMERCE
'COMMISSION**

[4th Sec. Application 27694]

**GRAIN FROM, TO, AND WITHIN THE WESTERN
DISTRICT**

APPLICATION FOR RELIEF

JANUARY 7, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by F. C. Kratzmeier, Agent, for carriers parties to grain and grain products within the Western District, 284 I. C. C. 723.

Commodities involved: Grain, grain products, and related articles.

Territory From, to, and within the western district, as more fully described in the cited report.

Grounds for relief: Rail competition, circuitry, grouping, and to establish related rates on kindred articles.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27697]

**PIPE AND RELATED ARTICLES FROM NEW
MEXICO TO POINTS IN TEXAS, ARKANSAS,
AND LOUISIANA**

APPLICATION FOR RELIEF

JANUARY 8, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by Lee Douglass, Agent, for carriers parties to schedule listed below.

Commodities involved: Wrought iron pipe and fittings, and related articles, carloads.

Between: Texas-New Mexico Railway stations in New Mexico, on the one hand, and points in Texas, Arkansas, and Louisiana, on the other.

Grounds for relief: Competition with rail carriers, circuitry, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: Lee Douglass, Agent, I. C. C. No. 802, Supp. 19.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing,

upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 27698]

SULPHURIC ACID FROM BATON ROUGE AND
NORTH BATON ROUGE, LA., TO BREWSTER,
FLA.

APPLICATION FOR RELIEF

JANUARY 8, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below. Commodities involved: Sulphuric acid, in tank-car loads:

From: Baton Rouge and North Baton Rouge, La.

To: Brewster, Fla.

Grounds for relief: Competition with rail carriers, circuitry, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates; C. A. Spaninger, Agent, I. C. C. No. 1200, Supp. 73.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Delegation of Authority 42, Amdt. 1]

DIRECTORS OF THE REGIONAL OFFICES

AUTHORITY TO TAKE CERTAIN ACTIONS UNDER
CPR 25, REVISED

By virtue of the authority vested in me as Director of Price Stabilization, pursuant to the Defense Production Act

of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, as amended, this Amendment 1 to Delegation of Authority 42 is hereby issued.

Delegation of Authority 42 is amended as follows:

1. Section 1 is amended to read as follows:

1. *Authority to act under sections 4 (d), 5 (c) (3), 12, 21 (c), 22, 30 (f) and (g), 32 (b), 33 and 35 of CPR 25.* Authority is hereby delegated to the Directors of the Regional Offices of the Office of Price Stabilization to act under sections 4 (d), 5 (c) (3), 12, 21 (c), 22, 30 (f) and (g), 32 (b), 33 and 35 of CPR 25. All actions in respect to sections 33 and 35 of CPR 25, taken by field offices previous to this authority, are hereby confirmed and validated.

This Amendment 1 to Delegation of Authority 42 shall be effective January 13, 1953.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

JANUARY 12, 1953.

[Ceiling Price Regulation 34, Section 20 (c)
Special Order 19]

GENERAL ELECTRIC CO.

PRICES FOR "IN WARRANTY" REPAIR SERVICES
ON ELECTRIC CLOCKS AND TIME SWITCHES
RENDERED

Statement of considerations. The ceiling prices for "In Warranty" repair services supplied to General Electric Company, Bridgeport, Connecticut by its authorized independent service stations is adjusted by this Special Order pursuant to Section 20 (c) of Ceiling Price Regulation 34, as amended. This section authorizes the Director of Price Stabilization to adjust ceiling prices paid by a purchaser of non retail services; if his sellers are too numerous to make recourse to Section 20 (b) of Ceiling Price Regulation 34 practicable; they are threatening to discontinue supplying him with such services; he agrees to absorb his sellers' price increase above the ceiling; and he will pay for those services no more than he would be required to pay other suppliers for the same service.

It appears from information submitted in the application of General Electric Company that the sellers of this service are too numerous to make recourse to paragraph 20 (b) of Ceiling Price Regulation 34 practicable. It further appears that the sellers of this service will be forced to discontinue supplying this company with these services if their rates are not increased. The application indicates that General Electric Company agrees to absorb the increased charges of said sellers; that the charges established herein do not exceed the amount which it would be required to pay other suppliers for the same service; and that such increased charges will not be incon-

sistent with the purposes of the Defense Production Act of 1950, as amended.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to Section 20 (c) of Ceiling Price Regulation 34, as amended, this Special Order is hereby issued.

1. On and after the effective date of this order, the ceiling prices which General Electric Company, Bridgeport, Connecticut may pay for "in warranty" repair services supplied by authorized independent service stations on the electric clocks listed below, and which such service stations may charge General Electric Company for such services are as follows:

	<i>Authorized rate per clock:</i>
Electric alarm clocks.....	1.00
Electric kitchen and occasional clocks.....	.20
Electric strike clocks.....	1.35
Electric commercial clocks.....	1.10
Electric time switches.....	1.35

2. All provisions of Ceiling Price Regulation 34, as amended, including the filing requirements of section 18 (c) except as changed by this Special Order shall remain in effect.

3. This Special Order, or any provisions thereof, may be revoked, suspended or amended by the Director of Price Stabilization at any time.

4. General Electric Company shall deliver a copy of this Special Order to each authorized independent service station, such delivery to be made in each case with or prior to the rendering of the service by each such authorized independent service station after the effective date of this Special Order.

Effective date. This order shall become effective January 8, 1953.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

JANUARY 7, 1953.

[Ceiling Price Regulation 34, as Amended,
Supplementary Regulation 3, as Amended,
Section 5, Special Order 14]

FORD MOTOR CO.

APPROVAL OF ADDITIONS ATTACHED TO LETTER
TO DEALERS, DATED JANUARY 2, 1953

Statement of considerations. This Special Order, pursuant to section 5 of Supplementary Regulation 3 to Ceiling Price Regulation 34, approves certain supplements to time allowances which appear in the Ford Suggested Time Schedule Reprint dated June 15, 1952.

The Director of Price Stabilization has determined from the data submitted by the publisher of the Ford Suggested Time Schedule, 1952 that the approval of these supplements would not be inconsistent with the purposes of the Defense Production Act of 1950, as amended.

Special provisions. 1. On and after the effective date of this order, the supplements to the Ford Suggested Time Schedule Reprint dated June 15, 1952,

as covered in Ford Application #FPSE-5 are authorized for use in establishing the time allowances for the operations described therein.

2. The following notice must be printed or stamped in a prominent position in the publication "Approved by OPS January 8, 1953 by Special Order No. 14, issued under section 5 of SR 3 to CPR 34."

3. All provisions of Ceiling Price Regulation 34, as amended, and Supplementary Regulation 3, as amended, except as changed by this Special Order shall remain in full force and effect.

4. This Special Order or any provision thereof may be revoked, suspended or amended at any time by the Director of Price Stabilization.

Effective date. This order shall become effective January 8, 1953.

JOSEPH H. FREEHILL,
Director of Price Stabilization.
